

CIFDAQ Appoints Ankur Garg as Chief Operating Officer for India and South-East Asia

Mumbai, 5th September 2024: CIFDAQ, a pioneering blockchain ecosystem company, proudly announces the appointment of Ankur Garg as Chief Operating Officer for India and Southeast Asia.

In his new position as Chief Operating Officer, Garg will leverage his extensive knowledge and strategic acumen to drive growth and innovation in the blockchain ecosystem across India and Southeast Asia. He will focus on optimizing the company's operations, ensuring that all processes align with strategic objectives to drive growth in the blockchain ecosystem. Along with overseeing the daily business functions, Garg will streamline operations, improve scalability, and support innovation, ensuring the company meets its goals while navigating the complexities of the rapidly evolving blockchain industry.

Himanshu Maradiya, Founder of CIFDAQ, stated, "We are excited to welcome Ankur Garg to the CIFDAQ family as our Chief Operating Officer. His extensive experience and operational expertise will be invaluable as we continue to scale our blockchain initiatives and expand our impact across India and Southeast Asia."

On joining the CIFDAQ team, Ankur Garg commented, "I am thrilled to join CIFDAQ at such a pivotal moment in the blockchain industry. I look forward to working with this talented team to drive operational excellence and innovation, propelling CIFDAQ to new heights."

As the Chief Operating Officer of CIFDAQ, Ankur Garg brings a wealth of experience and a fervent passion for capital markets to his new role, with an impressive 20-year track record in the financial markets. Throughout his career, Garg has demonstrated exceptional leadership in senior roles at esteemed firms such as Futures First and Edelweiss.

His extensive experience spans trading and managing traders across a broad spectrum of asset classes, including fixed income, commodities, equities and cryptocurrencies. Previously, as the Co-Founder of TDMM, a prominent quantitative firm specializing in digital assets, Garg has been at the forefront of innovation in the sector. His expertise broadens into the realm of artificial intelligence, reflecting his keen interest in and understanding of emerging technologies.

About CIFDAQ:

CIFDAQ is a leader in India's blockchain industry, offering a comprehensive AI-powered blockchain ecosystem designed to address the core challenges of the industry. CIFDAQ integrates legal and technical standards to connect various stakeholders, from individuals to large institutions. The platform ensures regulatory compliance, implements advanced security protocols, minimizes market manipulation risks, and aids users in understanding blockchain technology better.
