- India's defense ecosystem is witnessing strong momentum, with FY26 defense production reaching a record ₹1.78 lakh crore and defense exports touching an all-time high of ₹384b. Increasing indigenization, technology transfers, and global partnerships are positioning India as a key defense manufacturing hub, supporting the government's target of ₹3t defense production and ₹500b exports by FY30.
- Easing of supply chain issues and the finalization of large orders in FY27 is likely to accelerate growth and improve margins across select players.
