Gold fell as escalating Middle East tensions pushed oil prices and U.S. Treasury yields higher, heightening inflation concerns and reinforcing expectations of elevated U.S. interest rates. Concerns over Middle East energy supplies increased after Iran asked Yemen's Houthis to stand ready to close the Red Sea oil route if the U.S. strikes Iranian power infrastructure. Traders are now pricing in about a 56% chance that the Federal Reserve will hike rates in September, according to the CME FedWatch Tool. Traders are still pricing an about 73% chance of a December Fed rate hike, CME FedWatch Tool's data showed. Fed Governor Lisa Cook said she is "prepared to act" if inflation does not soon begin to slow. Fed Chairman Kevin Warsh declared his determination to bring inflation down without hinting at how.

Gold discounts in India deepen as volatility hurts demand; purchases in China steady - Gold traded at a wide discount in India as price volatility weighed, while demand in China remained steady with the country's central bank reporting its largest monthly increase in gold reserves in more than 2-1/2 years in June. Dealers offered gold at discounts of up to \$19 an ounce over official domestic prices this week, compared with premiums of up to \$5 an ounce and discounts of up to \$7 an ounce a week earlier. In China, bullion traded at discounts of \$1 to premiums of \$5 an ounce to the global benchmark spot price, compared to last week, when it traded at par to discounts of \$2. In Hong Kong, gold traded between a \$1 discount and a \$1.70 premium. In Singapore, gold was sold between a \$1 discount and a \$2 premium, while in Japan, it was sold at a discount of \$0.40.

Swiss gold exports drop 9% in May as deliveries to India fall - Swiss gold exports fell 9% in May from the previous month as lower shipments to India and Hong Kong offset higher deliveries to Britain and China, Swiss customs data showed. Supplies to India, a key bullion consumer, slumped to 955 kg in May, the lowest monthly amount in six years, down from 6.5 metric tons in April as India raised import tariffs for precious metals to support the rupee. "Gold jewellery demand remained subdued through May and early June, a seasonally soft period," the World Gold Council said in its India-focused research. "Industry feedback also suggests that bar and coin demand remained broadly stagnant." Deliveries to the UK from Switzerland, the world's biggest bullion refining and transit hub, rose to 39.4 metric tons last month from 35.5 tons in April. Britain is home to the world's largest over-the-counter gold trading hub.

China's net gold imports via Hong Kong fell about 38% month-on-month in May, with Hong Kong Census and Statistics Department data showing that they reached 53.674 metric tons, down from 86.715 tons in April. The Hong Kong data may not provide a complete picture of Chinese purchases, because gold is also imported via Shanghai and Beijing. China's total gold imports via Hong Kong stood at 65.562 tons in May, down around 34% from April's 99.327 tons. China's central bank increased its gold reserves for a 19th consecutive month in May, data from the People's Bank of China showed earlier this month. Gold reserves rose to 74.96 million fine troy ounces by the end of May versus the previous month's 74.64 million ounces. Meanwhile, the Hong Kong Futures Exchange said late last month that it would introduce a market-wide trading fee discount and incentive programmes for gold futures in a bid to boost liquidity and revitalise the contract.

India raises gold and silver tariffs to 15% to curb imports, support rupee - India has raised import tariffs on gold and silver to 15% from 6%, government orders said, as part of efforts to curb overseas purchases of the metals and ease pressure on the country's foreign exchange reserves. The higher duties could dampen demand in the world's second-largest consumer of precious metals, although they may help narrow India's trade deficit and support the rupee, one of Asia's worst-performing currencies. However, industry officials warned higher import taxes could revive smuggling, which had eased after India cut tariffs in mid-2024. The government has imposed a 10% basic customs duty and a 5% Agriculture Infrastructure and Development Cess (AIDC) on gold and silver imports, taking the effective import tax to 15% from 6%. Inflows into India's gold exchange-traded funds (ETFs) surged 186% year-on-year in the March quarter to a record 20 metric tons, the World Gold Council said last month.
