Gold prices steadied helped by prospects for a cut to U.S. interest rates as early as September. Fed Governor Christopher Waller said that the US central bank is 'getting closer' to an interest rate cut as inflation's improved trajectory and a labor market in better balance. Richmond Fed President Thomas Barkin said he is "very encouraged" that easing in inflation has begun to broaden and he would like to see it continue.

India discounts at 3 and 1/2-month peak as buyers shun lofty prices - Physical gold demand in Asian hotspots slouched as elevated prices made buyers hold off on purchases, with dealers in India offering the biggest discounts in nearly 3-1/2 months to entice consumers. Indian dealers offered a discount of up to \$31 an ounce over official domestic prices, versus last week's discount of \$11. Gold is being sold at a discount in India, for the tenth consecutive week on weak demand and the import of some gold with platinum at a lower duty. In top consumer China, dealers charged premiums of \$8-\$19 per ounce over international spot prices this week, compared with \$11-\$24 last week. Meanwhile, gold was sold at par to \$2.20 premiums in Singapore and at \$0.20 to \$2.20 premiums in Hong Kong. In Japan, bullion was sold at a \$0.10 discount to a \$1.0 premium, as people were selling their gold holdings to lock in profits due to the high prices.

Gem, jewellery exports down 6% in May on weak demand - Gem and jewellery export last month was down 6 per cent to \$2.48 billion (₹20,713 crore) against \$2.65 billion (₹21,796 crore) for the same period last year due to the economic uncertainties in the global markets. Cut and polished diamonds export declined 15 per cent to \$1.47 billion (\$1.72 billion) largely due to geopolitical tensions. Rough diamond imports dipped 10 per cent to \$2.39 billion (\$2.64 billion), as per the Gem and Jewellery Export Promotion Council of India data. Boosted by sharp increase in prices, gold jewellery exports increased 13 per cent to \$660 million (\$584 million) due to higher price realisation and renewed demand for the yellow metal by consumers globally. Coloured gemstones exports fell 29 per cent to \$63 million (\$89 million).

China's May net gold imports via Hong Kong down about 23% from April - China's net gold imports via Hong Kong in May dropped about 22.7% from the previous month, Hong Kong Census and Statistics Department data showed. Net imports into the world's top gold consumer stood at 26.722 metric tons in May, compared with 34.575 tons in April, the data showed. Total gold imports via Hong Kong were down about 19.3% at 34.897 tons.

India's gold imports seen falling as record price prompts jewellery swaps - India's gold imports in 2024 could fall by nearly a fifth from the previous year, as record high prices spur retail consumers to exchange old jewellery for new items. Lower imports by India, the world's second biggest consumer of the precious metal, could cap a rally that carried global prices to a record. In the March quarter, scrap supplies jumped 10% from a year ago to 38.3 tons, data from the World Gold Council showed. India imported 744 metric tons of gold in 2023. Jewellery demand accounts for three-quarters of the total demand, while investment demand makes up the rest.
