## Technical Snapshot

**SELL GOLD JUN @ 93600 SL 94000 TGT 93200-92800. MCX**

## Observations

Gold trading range for the day is 92145-94605.

Gold rose as investors sought safe-haven assets amid US economic and fiscal concerns.

Moody's downgraded the US credit rating due to high deficits and rising interest costs.

US-China 90-day tariff truce eased global recession fears and boosted market confidence.

Markets expect the U.S. central bank to implement two rate cuts, beginning in September.

## Technical Snapshot

**SELL SILVER JUL @ 96000 SL 96800 TGT 95200-94200. MCX**

## Observations

Silver trading range for the day is 94735-96605.

Silver remained supported by the outlook of lower interest rates by major central banks.

Softer inflation reinforced bets on two Federal Reserve rate cuts later this year.

Silver holdings in London rose for the first time since October 2024.

There were 22,859 tons of silver held in London vaults in April, up 3.3 % from March, the LBMA said.

Gold rose with appetite for safe-haven assets driven by growing concerns about the US economic outlook and budget deficit. Moody's Ratings downgraded the US government's credit rating, stripping it of its top-notch triple-A rating, citing large fiscal deficits and rising interest costs. Last week, bullion tumbled more than 3%, marking its worst weekly performance since November as increased risk appetite from the US-China trade deal weighed on the market.

**ASIA GOLD – Price pullback spurs gold demand in top Asian hubs -** Physical gold demand improved across most key Asian hubs as a pullback in global prices sparked buying interest among consumers. Indian dealers were offering a discount of up to \$34 an ounce over official domestic prices compared to last week's discount of up to \$16. Dealers in top gold consumer China charged premiums of \$9-\$50 an ounce over the global benchmark spot price, compared with premiums of \$42-\$49 last week. In Hong Kong, gold was sold at par to a \$2 premium, while in Singapore gold traded at par with the global benchmark to a premium of up to \$2.50 per ounce. In Japan, bullion was sold at a premium of \$0.25 to \$0.50.

**Share of gold in India's forex reserves doubles in four years, central bank report shows -** The share of gold held by India's central bank in its foreign exchange reserves has doubled in the last four years as on March-end, a report by the Reserve Bank of India showed on Monday. In dollar value terms, the share of gold in the total foreign exchange reserves increased to about 11.70% by end-March, from 9.32% as at end-September 2024 and 5.87% as on end-March 2021, the central bank's half year forex reserves report said. As of end-March, the RBI held 879.59 metric tonnes of gold, compared to 854.73 metric tonnes at the end of September. The proportion of gold held domestically rose to 511.99 metric tonnes as of March 31, against 510.46 metric tonnes at September-end, the RBI said. "While 348.62 metric tonnes of gold were kept in safe custody with the Bank of England and the Bank for International Settlements (BIS), 18.98 metric tonnes were held in the form of gold deposits," the report showed.

**Gold Demand Q1 2025: Investment Soars 170% Despite Weak Jewellery and Central Bank Buying -** Global gold demand including over-the-counter (OTC) trading rose by 1% year-on-year to 1,206 metric tons in the first quarter of 2025 as investment jumped 170%, the World Gold Council said. Driving up investment demand were massive inflows into physically backed gold exchange-traded funds and 14% growth in demand for gold bars in the first quarter. That offset a 32% slump in demand for coins. However, bar and coin investment in China rose 12% to 124.2 tons, the highest level since the second quarter of 2013's record high, said the WGC. Amid high prices, global gold jewellery consumption, fell 21% to 380.3 tons, the lowest level since the 2020 pandemic. Central banks, another major source of gold demand, cut purchases by 21% to 243.7 tons in the first quarter, the WGC calculated, based on reported purchases and an estimate of unreported buying.

**India Gold Trend 2025: Jewellery Demand Hits 15-Year Low as Investment Share Peaks -** Share of investment demand in India's total gold consumption will likely rise in 2025, as the price rally curtails jewellery demand but lures investors trying to diversify their portfolios amid geopolitical tensions, the World Gold Council (WGC) said. The country's jewellery demand in the January-March quarter fell 25% from a year ago to 71.4 metric tons, the lowest for that period since 2009. In contrast, investment demand experienced a 7% rise to 46.7 tons, the WGC said in a report. Share of investment demand in total gold demand surged to 39.5% in the first quarter of 2025, the highest in more than a decade, the WGC data showed.
