# Congregating tailwinds to prop capex cycle

### Public capex at forefront, private participation to follow

In the past three years, the government's capex push (through FY22-FY24BE at INR 22.5tn) led the momentum in capex cycle. But with the rise in average manufacturing capacity utilization in India to 76.3% in Q4FY23 from 68.6% in Q3FY20 (source: RBI), private sector capex too has pitched in. Led by PLI schemes, other sectors – power T&D, pharma, data center, metals, intralogistics, chemical, water, and cement – may also see strong impetus. So, SIEMNES (SIEM IN) expects sustained capex cycle in the medium term, from both the public and private sectors.

### Energy business set for a spin-off

In December 2023, SIEM's board initiated exploratory measures to examine the potential demerger of its energy segment. Also, the Board approved the incorporation of a wholly-owned subsidiary. In FY23, revenue from the energy segment stood at INR 60.8bn (31% of total revenue) and EBIT margin was at 13.7% (EBIT contribution at 34% of total FY23 EBIT). The demerger decision is in-line with the parent entity's strategy to separate energy business globally. India's energy business could likely be listed independently on exchanges by CY25 (source: company).

## Margin dilution unlikely despite execution of a large order for locos

In Q2FY23, SIEM won a large order worth INR 260bn for 1,200 nos. 9,000 HP electric locomotives. This included manufacturing of locos in 11 years followed by maintenance for the next 35 years. Despite winning this order on aggressive pricing, the management assures no margin dilution over the execution period. The locos would be assembled in the Indian Railways factory in Dahod, Gujarat and propulsion systems would be provided by SIEM's facility in Nashik, Maharashtra.

## Geopolitics to remain a key concern; India's resilience comforting

SIEM is cautious on the geopolitical scenario and its impact on the supply chain. Also, given the run-up to general elections, some large public orders may be delayed. Meanwhile, SIEM is confident on India's economic strength and resilience. Its key strategy focuses on localization, digitalization, sustainability, and capacity building. SIEM highlights semiconductor, batteries, and EV as emerging markets in India.

## Valuation: Reiterate Accumulate; TP raised to INR 4,510

We raise FY24E/25E EPS 7%/10%, led by robust order inflows, improved margin in mobility and better pricing environment. We also introduce FY26E EPS. We reiterate **Accumulate** with a raised TP of INR 4,510 from INR 4,120 on 60x FY25E P/E. <u>Expect an earnings CAGR of 17% in FY23-25E and a 17% ROE in FY24E-25E as a multi-year capex cycle sets in for public and private capex. SIEM, with its diversified portfolio, technological edge and parent support, would be the key beneficiary.</u>

# Rating: Accumulate

#### Target Price: INR 4,510 Upside: 13%

CMP: INR 4,005 (as on 26 December 2023)

#### **Company overview**

Siemens India, a flagship company of Siemens AG (Germany), is an integrated technology provider and a leading powerhouse in electronics and electrical engineering. The company offers a solutions portfolio consisting of industry-specific applications to optimize the performance of enterprises across the entire value chain, catering to sectors such as energy, power, oil & gas, higher industrial productivity, railways, and modern urban infrastructure.

#### Inflows up 8% YoY and orderbook at an all-time high

Order inflows grew 12% YoY to INR 45.0bn in Q4FY23, but moderated sequentially (lower 14% QoQ). Segmentwise, inflows in the energy segment rose 30% YoY to INR 20.3bn, in smart infra 23% to INR 13.2bn, and in digital industries 25% to INR 8.3bn. Inflows for the mobility segment fell 55% YoY to INR 3.2bn.

Order book was INR 455.2bn, lower 3% QoQ, with a book-to-bill ratio of 2.1x of FY24E revenue.

#### Standalone revenue up 24% in Q4

SIEM's standalone revenue rose 24% YoY to INR 53.8bn in O4FY23, 5% above our estimates, led by consistent strong performance across all the segments. Consolidated revenue rose 25% YoY to INR 58.1bn, led by healthy performance in C&S electric. FY23 revenue grew 21% YoY to INR 179.7bn. The growth is representative of continued growth in capex and digital spending by both public and private sectors.

Segment-wise, revenue from energy (34% share of Q4FY23 revenue) rose 13% YoY, led by major sectors such as oil & gas, transformers, and transmission. Smart infra (32%) grew 25% YoY and digital industries (22%) 26%, based on healthy backlog execution. Mobility (12%) surged 68% YoY as execution began for the large order of locos. Other revenue declined 17%.

#### EBITDA margin higher 90bps YoY to 11.6% in Q4

Gross margin slipped 240bps YoY to 30.3%, likely on execution of the highly competitive 12,000 HP locomotive order received in Q2FY24. Staff cost rose 8% YoY and operating cost 4%. EBITDA stood higher 34% to INR 6.3bn, beating estimates by 7%, and margin improved 90bps YoY to 11.7% led by operating leverage. Consolidated EBITDA was INR 7bn, up 36% YoY with margin expansion at 100bps YoY to 12.1%.

#### EBIT improved in Q4 amid higher volumes

Segment-wise, EBIT margin in energy improved 240bps YoY to 11.9% and smart infra margin rose 310bps to 12.4%. Margin for the Digital segment dropped 50bps YoY to YoY at 11.3% and for mobility 720bps YoY to 1.3%. Margin for other business was lower 840bps to 0.6%. Overall EBIT margin stood at 10.7%, higher 70bps YoY.

#### PAT up 36% YoY, beating estimates

Other income rose 16% YoY, interest cost came in lower by 68% while depreciation rose 4%. PAT rose 36% YoY to INR 5.3bn, 8% above estimates. Consolidated PAT came in at INR 5.7bn, up 50% YoY.

#### Capex worth INR 4.2bn to meet growing demand

SIEM announced a capex of INR 4.2bn towards capacity expansion for: 1) power transformers (transmission business), and 2) vacuum interrupters used in MV switchgear (power distribution). The capex has been planned so as to meet the growing demand in these segments across domestic and international markets.

**Key downside risks** are ongoing geopolitical turmoil leading to supply chain disruption, slowdown in tendering of public orders, a sharp slowdown in execution, and a rise in commodity prices.
