Gold prices rose as tepid U.S. economic data, which solidified bets for the Federal Reserve's first interest rate cut of the year in June. Prices rallied fueled by disappointing U.S. manufacturing and construction spending figures as well as a reduction in price pressures, as indicated by the Federal Reserve's preferred inflation gauge. London's gold price benchmark hit an all-time high of \$2,083.15 per troy ounce at a morning auction on Monday, surpassing the previous record of \$2,078.40 set on Dec. 28, the London Bullion Market Association (LBMA) said.

Asia Gold: Price rise slows activity in India; China premiums slip - Physical gold demand in India was subdued as an uptick in domestic prices dented sentiment and prompted buyers to postpone purchases, while premiums in top consumer China slipped. Indian dealers were charging a premium of up to \$1 an ounce over official domestic prices down from last week's premium of up to \$3. In China, gold premiums eased to \$36-\$48 per ounce over benchmark prices, from \$45-\$55 per ounce quoted a week ago. In Singapore, bullion was sold at anywhere between at par to \$3 premiums, while dealers charged premiums of between \$1 and \$3.5 in Hong Kong. In Japan, dealers sold gold anywhere between a discount of \$0.5 to \$0.5 premiums.

China's December net gold imports via Hong Kong jump 37% m/m - China's net gold imports via Hong Kong jumped about 37% in December from the previous month, Hong Kong Census and Statistics Department data showed. Net imports into the world's top gold consumer stood at 50.381 metric tons in December, compared with 36.801 tons in November, the data showed. Total gold imports via Hong Kong were up 29% at 59.589 tons.

Swiss gold exports hit six-year highs on demand from China and India - The global shift in the gold market continued unabated in January as trade data from Switzerland showed robust flows of the precious metal to Eastern nations. In its latest trade report, Switzerland said that 207 tonnes of gold were exported from Europe's largest refining hub to China, India and Hong Kong. According to reports, gold exports out of Switzerland reached an eight-year high. Earlier this month, the Shanghai Gold Exchange reported 271 tonnes of gold withdrawn from the market in January, the busiest start to the year on record and the second highest in the exchange's history.
