On track to deliver sustained growth

Delhivery Ltd. is India's largest fully integrated logistics provider. With a robust network spanning 18,700+ pin codes, 24 automated sort centres, and 57,000+ team members, it is revolutionising commerce through cutting-edge tech, world-class infrastructure and seamless logistics, delivering over 2 billion orders.

- Delhivery's consolidated revenue saw a 5.6% YoY increase, reaching Rs. 2,192cr in Q4FY25, owing to increasing the Part Truckload (PTL) volumes. Indian operations contributed Rs. 2,191cr (+5.6% YoY). International revenue, which accounts for a tiny fraction, saw a sharp 184.1% YoY jump to Rs. 3cr.
- EBITDA witnessed a substantial 159.5% YoY growth to Rs. 119cr, with a notable margin expansion of 320bps YoY to 5.4%, driven by higher volumes, enhanced operational efficiency across the networks and better fleet utilisation.
- As a result, the reported profit after tax (PAT) rose to Rs. 73cr, benefitting from lower tax expenses (-62.6% YoY) and a higher share of profits from its associate companies (+169.9% YoY).
- Delhivery's strategic initiatives drove steady performance in its core transportation businesses in Q4FY25, positioning the company for sustained momentum in FY26.

Outlook & Valuation

Though the Express Parcel division still faces challenges, the impending acquisition of Ecom Express is likely to boost yields and margins by leveraging a broader network and operational efficiencies. Increasing PTL volumes without compromising on pricing, combined with the benefits of an integrated network, should result in a favourable margin trajectory in the long term. As the lowest-cost player, a position strengthened by the Ecom deal, Delhivery is well-poised to increase yields, enhance profitability and gain significant market share. Its rapid commerce service is also gaining traction from business-to-business customers seeking faster supply chain solutions. Therefore, **we remain optimistic and assign an Accumulate rating on the stock, with a target price of Rs. 431, based on 2.7x FY27E P/S.**

Key concall highlights

- The Express Parcel segment saw a modest 3.2% YoY revenue growth to Rs. 1,256cr, driven by a 1.0% YoY increase in shipments to 177mn, despite facing intense competition that led to aggressive pricing strategies from rivals, which put pressure on the business.
- On the other hand, the Part Truckload (PTL) business segment clocked a significant 24.0% YoY growth to Rs. 517cr, driven by a 19.0% YoY increase in tonnage to 458,000 tonne. However, Supply Chain Services revenue declined 2.1% YoY to Rs. 229cr, largely. Meanwhile, TL revenue decreased 13.2% YoY to Rs. 151cr, whereas Cross Border Services revenue rose 9.7% YoY to Rs. 34cr.
- Looking ahead, the management expects the capital expenditure requirements to remain relatively steady, with a gradual decline to 3.5% and 4% of its revenue in the long term.
- Delhivery announced plans to acquire Ecom Express, a deal currently awaiting approval from the Competition Commission of India, for a proposed consideration of Rs. 1,400cr, including an additional Rs. 300cr to cover lease liabilities and operating losses, which will flow through the P&L.
- As of Q4FY25, Delhivery operated 18 dark stores. The older stores are processing between 350 and 400 orders daily, and aim to reach a break-even point of 700-800 orders per day. The company has set a goal to expand its store network to 50 by FY26.
