AGRI PICKS

A Daily Report on Agriculture Commodities 23 February 2024

MARKET NEWS/UPDATES

- Farmers in Andhra Pradesh have sown rabi crops over 1.65 mln ha as of Wednesday, down 10% from 1.83 mln ha a year ago, according to state government data. So far, nearly 72% of the targeted rabi crop area of 2.3 mln ha in the state has been covered, the data showed. The acreage of Bengal gram was down 10.5% on year at 299,000 ha, the data showed. The area under black gram, also known as urad, was down 5.4% on year at 264,000 ha from 279,000 ha last year, the data showed. The area under pulses was down 7.5% on year at 663,000 ha. Bengal gram, black gram, maize, and peanuts are the major rabi crops grown in the state. Farmers in Andhra Pradesh have sown paddy over 555,000 ha as of Wednesday, down from 642,000 ha in the previous year. The targeted area for the crop is 820,000 ha in the current season. Jowar's acreage was up at 97,000 ha from 58,000 ha a year ago, data showed. Maize was sown over 148,000 ha, lower than 227,000 ha in the previous year. The area under food grains was down at 1.47 mln ha from 1.65 ha a year ago, and coarse grain cultivation was at 256,000 ha, down from 294,000 mln ha in the previous year. Oilseed acreage fell to 100,000 ha from 114,000 ha a year ago, according to the report. The target for oilseeds is 142,000 ha for the current season. Groundnut was sown over 67,000 ha, lower than 91,000 ha a year ago. The water level in major reservoirs in the state as of Wednesday was 229.58 bln cu ft, down from 460.49 bln cu ft a year ago, according to government data.
- The Cotton Association of India has estimated the country's cotton output in 2023-24 (Oct-Sep) at 29.4 mln bales (1 bale = 170 kg), unchanged from the last month's projection, according to a release. The association updates its estimates almost every month, based on information received from members of associations in 11 cotton-growing states and other trade sources. Production of cotton in the north zone, which comprises Punjab, Haryana, and Rajasthan, is estimated at 4.2 mln bales, down 100,000 bales from last year. As of Jan 31, 3.3 mln bales of cotton had been produced in this zone. The estimate for the central zone, which comprises Gujarat, Maharashtra, and Madhya Pradesh, is also down at 18 mln bales from 19.5 mln bales last year. As of Jan 31, 9.4 mln bales of cotton had been produced in this zone. The estimate for the south zone is also seen lower at 6.8 mln bales from 7.5 mln bales last year. As of Jan 31, 4.7 mln bales of cotton were produced in this zone. Other states account for the rest of the output. The opening stock for the season starting October was estimated at 2.9 mln bales, the association said. The total supply of cotton for the 2023-24 season is estimated at 34.5 mln bales, down from 35.5 mln bales a year ago. The association has estimated imports in 2023-24 at 2.2 mln bales, higher than the 1.25 mln bales imported in 2022-23. Additionally, total supply till the end of Jan 2024 is estimated at 21.0 mln bales. The association has estimated the domestic consumption at 31.1 mln bales, unchanged from the previous year. It estimated the exports at 1.4 mln bales, down from 1.6 mln bales during last season, but unchanged from the previous month's estimates. Until Jan 31 the consumption is estimated at 11 mln bales.
- India's spices exports during Apr-Nov rose 6.1% on year to 953,303 tn, according to data from the Spices Board India. In terms of value, exports for the period rose 3.8% to \$2.68 bln from \$2.58 bln a year ago. The rise in exports was driven by coriander, chilli, and a few other spices. Exports of coriander shot up by 188.4% on year to 81,045.7 tn, according to data from the Spices Board. India is a major producer and exporter of coriander. Garlic exports surged 82.2% on year to 64,827.8 tn and chilli exports rose 13.7% on year to 340,750.6 tn. On the other hand, jeera exports fell almost 30% on year to 93,502.4 tn during the period. Turmeric exports were down 1.1% on year at 110,745.4 tn, according to Spices Board data. India accounts for about 80% of the world's turmeric production and 60% of the world's exports, according to NCDEX.
- Farmers in Gujarat have sown crops across 101,179 ha as of Monday for the 2023-24 summer season, down 5% from 106,279 ha in the corresponding period of last year, according to data released by the state agriculture department. The normal acreage for the season, which is the average of the last three years, is 1.1 mln ha. Bajra, rice, sesamum, and moong are the main crops grown in the state during summer. The total area under cereals was up 33% on year at 63,400 ha, which was mainly due to higher area under paddy and maize. Paddy was sown over 52,658 ha, up 62% from last year. Paddy is the second-largest cereal grown in the state. However, the area under bajra, the key crop grown during summer, was lower at 9,029 ha than last year's acreage of 14,243 ha. The pulses grown during the season are urad and moong. The acreage under pulses was at 2,494 ha, down 27% on year. Moong was sown over 2,288 ha as of Monday, largely unchanged from last year. Urad acreage plunged to 206 ha from 1,168 ha in the same period of the previous year. Groundnut and sesamum are the main oilseed crops sown during the season in the state. So far, groundnut has been sown over 2,186 ha, down from 4,183 ha last year. Sesamum was sown over 3,149 ha, lower than 5,793 ha last year. The area under vegetables was at 10,871 ha, down from 14,451 ha a year ago. Onion acreage plunged to 201 ha from 2,317 ha a year ago, while sugarcane acreage has risen to 2,719 ha from 1,623 a year ago, the data showed.
- Mills in the country produced 22.37 mln tn of sugar from Oct 1, 2023, till Feb 15, 2.5% lower than the corresponding period a year ago, the Indian Sugar & Bio-energy Manufacturers Association said in a press release today. A total of 505 mills were operational across the country as of Feb 15, up from 502 a year ago, the association said. According to the industry body, mills in Maharashtra--the top manufacturer of the commodity--produced 7.9 mln tn of sugar compared with 8.6 mln tn a year ago. However, the output of mills in Uttar Pradesh, the second-largest producer, was 6.7 mln tn, up 10.7% from a year ago. Production in Karnataka fell 6.2% on year to 4.3 mln tn during the same period.

Trading signals is prepared based on statistical analysis and is purely on technical indicators like exponential moving averages (EMAs), Relative strength Index (RSI) and stochastic, putting altogether provides an idea about intraday, short, medium and long term trend of the commodities. It also signals the risk of an investment in both agricultural and global commodities as well. Based on all listed indicators above, investors were able to fix a daily, near-term and long term trends. However, must be cautious especially for real-time intraday traders/jobbers.

Trading Strategy based on EMA

Trading strategies mentioned in the report is mainly based on 3, 5, 13, 22, 45 & 60 days exponential Moving Averages. 3 and 5 day EMA has taken for developing Intraday trading strategy, 13 days and 22 days EMA for Short term and Medium term, while 45,60 days EMA for Long term. Here, we use EMAs for POSITIVE and NEGATIVE signals. POSITIVE signal is formed when a short-term moving average (eg: 30 day) crosses from below a longer-term average (eg: 60 day), which is considered bullish. Likewise, NEGATIVE signal is formed when a short-term moving average (eg: 30 day) crosses from above a longer-term moving average (eg: 60 day), which is considered bearish.

RISK DISCLOSURE

Geojit Financial Services Limited and/or its Affiliates and its officers, directors and employees including the analyst/ authors shall not be in any way be responsible for any loss or damage that may arise to any person from any inadvert-ent error in the information contained in this report. Investors may lose his/her entire investment under certain market conditions so before acting on any advice or recommendation in these material, investors should consider whether it is suitable for their particular circumstances and, if necessary, seek professional advice. This report does not take into account the specific investment objectives, financial situation/circumstances and the particular needs of any specific person who may receive this document. The user assumes the entire risk of any use made of this information. Each recipient of this report should make such investigation as it deems necessary to arrive at an independent evaluation of an investment in the Commodity/(ies) referred to in this report (including the merits and risks involved). The price, volume and income of the investments referred to in this report may fluctuate and investors may realize losses that may exceed their original capital.

The investments or services contained or referred to in this report may not be suitable for all equally and it is recommended that an independent investment advisor be consulted. In addition, nothing in this report constitutes investment, legal, accounting or tax advice or a representation that any investment or strategy is suitable or appropriate to individual circumstances or otherwise constitutes a personal recommendation of GFSL.

REGULATORY DISCLOSURES:

Geojit Financial Services Limited's Associates consists of companies such as Geojit Technologies Private Limited (GTPL - Software Solutions provider), Geojit Credits Private Limited (GCPL- NBFC Services provider). In the context of the SEBI Regulations on Research Analysts (2014), Geojit Financial Services Limited affirms that we are a SEBI registered Research Entity and we issue research reports /research analysis etc that are prepared by our Research Analysts. We also affirm and undertake that no disciplinary action has been taken against us or our Analysts in connection with our business activities.

In compliance with the above mentioned SEBI Regulations, the following additional disclosures are also provided which may be considered by the reader before making an investment decision:

1. Disclosures regarding Ownership:

GFSL confirms that:

It/its associates have no financial interest or any other material conflict in relation to the subject Commodity futures covered herein at the time of publication of this report.

Further, the Research Analyst confirms that:

He, his associates and his relatives have no financial interest in the subject Commodity futures covered herein, and they have no other material conflict in the subject Commodity at the time of publication of this report.

2. Disclosures regarding Compensation:

During the past 12 months, GFSL or its Associates have not received any compensation or other benefits from any entity/ third party in connection with the Commodity futures mentioned in this report.

3. Disclosure regarding the Research Analyst's connection with the Commodity futures:

It is affirmed that I, Anu V Pai, employed as Research Analyst by GFSL and engaged in the preparation of this report have no substantial ownership or financial interest over any Commodity futures mentioned in the report.

4. Disclosure regarding Market Making activity:

Neither GFSL nor its Research Analysts have engaged in market making activities for the subject Commodity futures. Copyright in this report vests exclusively with GFSL
