Gold steadied as investors continued to digest fresh US economic data. Fed policymakers Bowman and Mester flagged the possibility of another rate hike this year, while Bostic warned that the funds rate will need to remain at the terminal level for longer. The resilience of the US private sector, indicated by the services ISM PMI figures and manufacturer's survey, supported the argument for the regulator's restrictive stance.

China demand robust; India buyers unimpressed by price dip - Physical gold premiums eased slightly in top consumer China, but remained elevated on high investor demand amid a broadly weaker yuan and economic worries, while lower prices in India failed to boost retail purchases. Chinese dealers charged premiums of between \$80 and \$100 an ounce over global spot prices, compared with \$60-\$130 last week. China's gold imports via Hong Kong rebounded in August from the previous month, data showed, with the issuance of fresh quotas to local banks likely to boost shipments. In Hong Kong, bullion was sold at premiums of \$2.25-\$3.25 and in Singapore at \$1.75-\$2.75. Dealers in India were charging a premium of up to \$4 an ounce over official domestic prices, up from last week's premium of \$2.

China's gold imports via Hong Kong rebounded in August from the previous month, data showed on Tuesday, with the issuance of fresh quotas to local banks likely to boost shipments into the world's top gold consumer. Net imports stood at 39.023 metric tons in August, up 51.4% from the previous month, Hong Kong Census and Statistics Department data showed. That was still below the 68.227 tons reported a year earlier. Total gold imports via Hong Kong were up 49.6% on a monthly basis at 45.237 tons, but lower than 71.855 tons in August 2022. Official data showed that the People's Bank of China extended its streak of central bank gold purchases to a tenth straight month at end-August.

Swiss gold exports up in August due to higher shipments to India - Swiss gold exports rose by 7.3% in August from July as higher deliveries to India and China offset lower supplies to Turkey, customs data showed. Switzerland is the world's biggest bullion refining and transit hub, while China and India are the largest consumer markets with local demand sensitive to high prices and time of the season. Supplies to India, where jewellers usually make purchases for the October-November festival season, jumped by almost threefold to their highest since May, while shipments to China rose 1%, the data showed. China's physical gold premiums soared to a new high last week, amid strong demand to shore up a depreciating yuan and a lack of fresh import quotas.
