Gold prices were little changed as U.S. Treasury yields held firm, while investors turned cautious ahead of key economic data that could shed light on the Federal Reserve's potential rate cut trajectory. Data last week showed that the U.S. prices were unchanged in May while consumer spending rose moderately. Market now sees a 63% chance of the Fed cutting interest rates in September as well as another cut in December.

India demand still lacklustre, eyes on budget - Indian gold demand remained lacklustre due to higher prices and as some buyers were postponing purchases hoping the government would cut import duty in the upcoming budget, while demand in China also moderated. Indian dealers offered a discount of up to \$9 an ounce over official domestic prices, versus last week's discount of \$13. In top consumer China, dealers charged premiums of \$12-\$23 per ounce over international spot prices this week compared with \$18-\$25 last week. In Japan, bullion was sold at par to \$0.5 premiums. Meanwhile, in Singapore, gold was sold at par to \$2.10 premiums and at par to \$2 premiums in Hong Kong.

Gem, jewellery exports down 6% in May on weak demand - Gem and jewellery export last month was down 6 per cent to \$2.48 billion (₹20,713 crore) against \$2.65 billion (₹21,796 crore) for the same period last year due to the economic uncertainties in the global markets. Cut and polished diamonds export declined 15 per cent to \$1.47 billion (\$1.72 billion) largely due to geopolitical tensions. Rough diamond imports dipped 10 per cent to \$2.39 billion (\$2.64 billion), as per the Gem and Jewellery Export Promotion Council of India data. Boosted by sharp increase in prices, gold jewellery exports increased 13 per cent to \$660 million (\$584 million) due to higher price realisation and renewed demand for the yellow metal by consumers globally. Coloured gemstones exports fell 29 per cent to \$63 million (\$89 million).

China's May net gold imports via Hong Kong down about 23% from April - China's net gold imports via Hong Kong in May dropped about 22.7% from the previous month, Hong Kong Census and Statistics Department data showed. Net imports into the world's top gold consumer stood at 26.722 metric tons in May, compared with 34.575 tons in April, the data showed. Total gold imports via Hong Kong were down about 19.3% at 34.897 tons.

India's gold imports seen falling as record price prompts jewellery swaps - India's gold imports in 2024 could fall by nearly a fifth from the previous year, as record high prices spur retail consumers to exchange old jewellery for new items. Lower imports by India, the world's second biggest consumer of the precious metal, could cap a rally that carried global prices to a record. In the March quarter, scrap supplies jumped 10% from a year ago to 38.3 tons, data from the World Gold Council showed. India imported 744 metric tons of gold in 2023. Jewellery demand accounts for three-quarters of the total demand, while investment demand makes up the rest.
