Sell

3Q operationally weak; downgrade to sell

- Vodafone Idea's (Vi) reported EBITDA (up 4% QoQ, vs. 3%/9% QoQ growth for RJio/Bharti India wireless) came in line with our estimates due to lower employee and SG&A costs.
- However, operationally, results were weaker as subscriber decline remained elevated (-5.2m QoQ vs our estimate of -4m), and reported ARPU came in ~1% below our estimate at INR163 (+5% QoQ vs. 4-5% QoQ growth for peers).
- Vi's capex increased sharply to INR32b (from INR14b in 2Q). Further, management has guided for INR100b capex for FY25 (vs. INR53b in 9M).
- Vi lost further market share to peers in 3Q, with continued data subscriber churn and weaker customer engagement metrics. Bharti was once again the biggest gainer, with ~80bp/45bp QoQ gains on Revenue Market Share (RMS) and Subscriber Market Share (SMS) in 3QFY25.
- Vi's continued subscriber loss remains a key concern. Despite accelerated network investments in the interim, we believe regaining subscribers will remain a tall task for Vi as its peers, with superior free cash flow generation and deeper pockets, can keep customer acquisition costs higher.
- Further, with Gol prepayments commencing from 1HFY26 and no breakthrough on debt raise, we believe Vi is likely to face a cash shortfall and may not be able to meet the capex guidance of INR500-550b by FY27.
- We cut our FY26-27E EBITDA by 7-8% on lower subscriber and ARPU assumptions. We **downgrade Vi to Sell (from Neutral)** with a revised TP of INR5, based on DCF implied ~14x FY27E EV/EBITDA.

Tariff hike boost partly offset by continued decline in subscriber base

- Vi's wireless ARPU was up 5% QoQ to INR163 (+10% YoY vs. +4%/+5% QoQ for RJio and Bharti) and was ~1% below our estimate of INR165.
- The company indicated that customer ARPU (excluding M2M) was up ~4% QoQ to INR173 (vs. INR245 for Bharti).
- Vi's overall subscriber base at 199.8m declined by a further 5.2m QoQ (vs. a 5.1m net decline in 2QFY25 and higher than our expectation of a 4m QoQ decline) due to churn remaining elevated post the tariff hikes.
- Monthly churn was stable QoQ at 4.5% (vs. a decline of ~75bp QoQ for Bharti) and remains a key monitorable.
- Wireless revenue at INR99b (+5% YoY, 2% below) was up 2% sequentially (vs. a 3%/6% QoQ increase for RJio/Bharti) as residual tariff hike benefits were partly offset by a continued decline in subscriber base.
- Reported EBITDA at INR47b (+4% QoQ, +8% YoY) was in line with our estimate due to lower employee costs (-6% QoQ) and SG&A costs (-1% QoQ).
- Pre-Ind-AS 116 EBITDA at INR24.5b improved ~6% QoQ (+15% YoY) and was in line with our estimate as margin expanded ~80bp QoQ to 22% (+200bp YoY and ~35bp higher vs. our estimate).

- Reported losses stood at INR66b (vs. INR72b QoQ and our estimate of INR71b), largely driven by lower net finance costs (11% below, -10% QoQ, certain one-offs pertaining to vendor dues).
- Vi's reported net debt (excluding leases but including interest accrued and not due) increased INR55b QoQ to INR2.18t. Vi owes ~INR2.27t to Gol for deferred spectrum and AGR dues. External/banking debt declined further to a modest ~INR23b (vs. INR33b QoQ, INR77b YoY).

Highlights from the management commentary

- **Subscriber trends:** Management indicated that it is seeing some green shoots from network rollouts, with VLR net adds in 11 circles in Dec'24 and Jan'25. Further, it expects trends to improve with the progress on network rollout and the upcoming 5G launch.
- **Network rollout:** Vi rolled out ~3.5k towers (~4k MBB towers) and ~21k net MBB sites during 3Q, leading to an increase in 4G population coverage by a further ~20m to 1.07b. Management expects to reach 4G population coverage of 1.1b by Mar'25 and 1.2b (~90%) over the medium term. Further, the company plans to commercially launch 5G services in Mumbai in Mar'25, followed by launches in Delhi, Bangalore, Chandigarh, and Patna in Apr'25.
- **Tariff hike:** Management noted that the benefits of tariff hikes are largely reflected in 3Q (~12% customer ARPU growth over the last two quarters). Further, management reiterated its stance on the need for further tariff hikes (possibly in the next 3-6 months) and a change in tariff construct to usage-based plans.
- **Debt raise:** Vi remains engaged with lenders for a debt raise. Further, management highlighted that recent Bank Guarantee (BG) waivers indicate Gol's commitment to a three-player market and have helped advance discussions with lenders.
- **Network opex:** Management indicated that it is looking to expand its tower presence to 215-220k (from ~187k currently). Typically, a new site addition results in a ~60-70k per month increase in network opex. However, there has been some offset from seasonally lower energy costs and green site initiatives in 3Q, which led to QoQ stable network opex.

Valuation and view

- Vi continues to lose market share to peers on account of lower ARPU translation, given its inferior subscriber mix and elevated subscriber churn.
- Vi plans to embark on a significant capex cycle (INR500-550b over the next 2-3 years) to bridge the network gap with peers.
- Despite the likely capex, we believe gaining back subscribers would be a tall ask for Vi, given its peers' superior free cash flow generation and deeper pockets.
- Further, we believe Vi's network investments remain contingent on debt raise, which in turn is dependent on continued support/relief from Gol (INR440b+ annual repayments to Gol starting from 1HFY26).
- Stabilization of the subscriber base, along with further relief from Gol, remains imperative for Vi's long-term survival.
- We cut our FY26-27E EBITDA by 7-8% on lower subscriber and ARPU assumptions. We **downgrade Vi to Sell (from Neutral) with a revised TP of INR5**, based on DCF implied ~14x FY27E EV/EBITDA.

Detailed takeaways from the earnings call

- **Subscriber trends:** Management indicated that it is seeing some green shoots from network rollouts, with VLR net adds in 11 circles in Dec'24 and Jan'25. Further, it expects trends to improve with the progress on network rollout and the upcoming 5G launch.
- **Network rollout:** Vi rolled out ~3.5k towers (~4k MBB towers) and ~21k net MBB sites during 3Q, leading to an increase in 4G population coverage by a further ~20m to 1.07b. Management expects to reach 4G population coverage of 1.1b by Mar'25 and 1.2b (~90%) over the medium term. Further, it plans to commercially launch 5G services in Mumbai in Mar'25, followed by launches in Delhi, Bangalore, Chandigarh, and Patna in Apr'25.
- **Tariff hike:** Management noted that benefits of tariff hike is largely reflected in 3Q (~12% customer ARPU growth over the last two quarters). Further, management reiterated its stance on the need for further tariff hikes (possibly over the next 3-6 months) and a change in tariff construct to usage-based plans.
- **Debt raise:** Vi remains engaged with lenders for a debt raise. Further, management highlighted that the recent BG waivers indicate Gol's commitment to a three-player market and have helped advance discussions with lenders.
- **Network opex:** Management indicated that it is looking to expand its tower presence to 215-220k (from ~187k currently). Typically, a new site addition results in a ~60-70k per month increase in network opex. However, there has been some offset from seasonally lower energy costs and green site initiatives in 3Q, which led to QoQ stable network opex.
- **User engagement metrics:** Despite generous offerings such as free data during night hours, Vi's data usage on network and on per sub basis has been on a declining trend. However, management indicated that user engagement trends such as data usage per sub have started improving in 4Q.
- **Impact from voice-only packs:** Management indicated that it is too early to quantify any impact, but it expects the impact to be minimal, given the pricing construct for such plans. Management indicated that subscribers would prefer to have data allowances, even if it costs ~INR20/month more, and it does not expect any material down-trading.

3Q results review: Largely in line results; capex rises sharply

- Vi's overall revenue at INR111b (+2% QoQ, +4% YoY) was ~2% below our estimate as tariff hike benefits continued to be offset by subscriber base declines.
- Reported EBITDA at INR47b (+4% QoQ, +8% YoY, vs. +3%/+9% QoQ for RJio and Bharti-India wireless) was in line with our estimate due to lower employee costs (-6% QoQ, 7% below) and SG&A costs (-1% QoQ, 6% below).
- Reported EBITDA margin expanded ~75bp QoQ to 42.4% (~165bp YoY, -25/+180bp QoQ for RJio and Bharti India wireless) and was ~40bp above our estimate.
- Pre Ind-AS 116 EBITDA at INR24.5b improved ~6% QoQ (+15% YoY) and was in line with our estimate. Pre Ind-AS 116 EBITDA margin expanded ~80bp QoQ to 22% (+200bp YoY and ~35bp higher vs. our estimate).
- Vi's reported losses stood at INR66b (vs. INR72b QoQ and our estimate of INR71b), largely driven by lower net finance costs (11% below, -10% QoQ, certain one-offs pertaining to vendor dues).
- Vi's reported net debt (excluding leases but including interest accrued and not due) increased by INR55b QoQ to INR2.18t. Vi owes ~INR2.27t to Gol for

deferred spectrum and AGR dues. External/banking debt declined further to a modest ~INR23b (vs. INR33b QoQ, INR77b YoY).

- Vi's capex increased sharply to INR32b (from INR14b in 2Q). Management has guided for INR100b capex for FY25 (vs. INR53b in 9M).

Tariff hike boost partly offset by a continued decline in subscriber base

- Wireless ARPU was up 5% QoQ to INR163 (+10% YoY vs. +4%/+5% QoQ for RJio and Bharti) and ~1% below our estimate of INR165, on account of residual benefits of tariff hikes.
- Vi indicated that customer ARPU (excluding M2M) was up ~4% QoQ to INR173 (vs. INR245 for Bharti).
- Vi's overall subscriber base at 199.8m declined by a further 5.2m QoQ (vs. a 5.1m net decline in 2QFY25 and higher than our expectation of 4m QoQ decline) due to churn remaining elevated after tariff hikes.
- Vi's monthly churn was stable QoQ at 4.5% (vs. a decline of ~75bp QoQ for Bharti) and remains a key monitorable.
- Vi's postpaid subscriber base (including M2M) further improved QoQ (rising by ~0.7m QoQ) to 25.2m, 4G/5G subscriber base inched up by a modest 0.1m QoQ, while data subs declined by a further ~0.7m QoQ.
- Wireless revenue at INR99b (+5% YoY, 2% below) was up 2% sequentially (vs. a 3%/6% QoQ increase for RJio/Bharti) as residual tariff hike benefits were partly offset by continued subscriber declines.

Other highlights: Consumer engagement weaker and remains well below peers; trade payables decline

- Enterprise revenue at INR12b (flat QoQ, -1% YoY) was ~1% below our estimate.
- Despite a lower base, Vi's data volume declined ~2% QoQ (-2% QoQ in 2QFY25 as well) and was significantly weaker vs. +2-3% QoQ growth for Bharti and RJio, including FTTH.
- Data usage per data subscriber declined to 14.5GB/month (from 14.7GB QoQ) and remains significantly below peers [RJio (32.3GB including FTTH contribution), Bharti 24.5GB].
- Voice usage on the Vi network declined ~1% QoQ (vs. -5% QoQ in 2QFY25, weaker vs. +3% QoQ for Bharti and RJio).
- Implied minutes of usage per subscriber improved marginally to 593min/month (from 587min QoQ) but remained significantly below 1,160mins/ 1,013mins for Bharti/RJio.
- Vi's trade payables declined further by ~INR6b QoQ to INR117b (vs. INR123b QoQ and INR138b at FY24 end). This primarily comprises dues to tower and network vendors such as Indus Towers.

Progress on network rollout

- Vi added ~3.5k towers (~4k MBB towers) and 21k net broadband sites in 3Q. This is the largest quarterly rollout for Vi since the merger.
- As a result, Vi's 4G population coverage increased by ~20m, reaching 1.07b by Dec'24 (vs. 1.05b by Sep'24).
- Management indicated that 4G population coverage would be further ramped up to 1.1b by Mar'25 and 1.2b (90% of the overall population).
- Vi plans to commercially launch 5G services in Mumbai in Mar'25, followed by Delhi, Bangalore, Chandigarh, and Patna in Apr'25.

Bharti was once again the biggest gainer

- On our estimates, Bharti continued to be the biggest gainer on RMS in 3QFY25, gaining a further ~80bp QoQ (+225bp YoY), as Rjio lost ~50bp QoQ (-70bp YoY) and Vi lost a further ~30bp QoQ (and -160bp YoY) market share among three private telcos.
- Bharti also gained 45bp QoQ (+105bp YoY) in the SMS, with R-Jio gaining ~10bp QoQ (~50bp YoY), while Vi lost a further ~55bp QoQ (and -155bp YoY).

Exhibit 3: Vi's 3Q results summary

NOTES

Explanation of Investment Rating	
Investment Rating	Expected return (over 12-month)
BUY	>=15%
SELL	< - 10%
NEUTRAL	< - 10 % to 15%
UNDER REVIEW	Rating may undergo a change
NOT RATED	We have forward looking estimates for the stock but we refrain from assigning recommendation

*In case the recommendation given by the Research Analyst is inconsistent with the investment rating legend for a continuous period of 30 days, the Research Analyst shall be within following 30 days take appropriate measures to make the recommendation consistent with the investment rating legend.

Disclosures

The following Disclosures are being made in compliance with the SEBI Research Analyst Regulations 2014 (herein after referred to as the Regulations).

Motilal Oswal Financial Services Ltd. (MOFSL) is a SEBI Registered Research Analyst having registration no. INH000000412. MOFSL, the Research Entity (RE) as defined in the Regulations, is engaged in the business of providing Stock broking services, Depository participant services & distribution of various financial products. MOFSL is a listed public company, the details in respect of which are available on www.motilaloswal.com. MOFSL (erstwhile Motilal Oswal Securities Limited - MOSL) is registered with the Securities & Exchange Board of India (SEBI) and is a registered Trading Member with National Stock Exchange of India Ltd. (NSE) and Bombay Stock Exchange Limited (BSE), Multi Commodity Exchange of India Limited (MCX) and National Commodity & Derivatives Exchange Limited (NCDEX) for its stock broking activities & is Depository participant with Central Depository Services Limited (CDSL) National Securities Depository Limited (NSDL), NERL, COMRIS and CCRL and is member of Association of Mutual Funds of India (AMFI) for distribution of financial products and Insurance Regulatory & Development Authority of India (IRDA) as Corporate Agent for insurance products. Details of associate entities of Motilal Oswal Financial Services Limited are available on the website at <http://onlinereports.motilaloswal.com/Dormant/documents/List%20of%20Associate%20companies.pdf>

MOFSL and its associate company(ies), their directors and Research Analyst and their relatives may; (a) from time to time, have a long or short position in, act as principal in, and buy or sell the securities or derivatives thereof of companies mentioned herein. (b) be engaged in any other transaction involving such securities and earn brokerage or other compensation or act as a market maker in the financial instruments of the company(ies) discussed herein or act as an advisor or lender/borrower to such company(ies) or may have any other potential conflict of interests with respect to any recommendation and other related information and opinions.; however the same shall have no bearing whatsoever on the specific recommendations made by the analyst(s), as the recommendations made by the analyst(s) are completely independent of the views of the associates of MOFSL even though there might exist an inherent conflict of interest in some of the stocks mentioned in the research report.

MOFSL and / or its affiliates do and seek to do business including investment banking with companies covered in its research reports. As a result, the recipients of this report should be aware that MOFSL may have a potential conflict of interest that may affect the objectivity of this report. Compensation of Research Analysts is not based on any specific merchant banking, investment banking or brokerage service transactions. Details of pending Enquiry Proceedings of Motilal Oswal Financial Services Limited are available on the website at <https://galaxy.motilaloswal.com/ResearchAnalyst/PublishViewLitigation.aspx>

A graph of daily closing prices of securities is available at www.nseindia.com, www.bseindia.com. Research Analyst views on Subject Company may vary based on Fundamental research and Technical Research. Proprietary trading desk of MOFSL or its associates maintains arm's length distance with Research Team as all the activities are segregated from MOFSL research activity and therefore it can have an independent view with regards to Subject Company for which Research Team have expressed their views.

Regional Disclosures (outside India)

This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL & its group companies to registration or licensing requirements within such jurisdictions.

For Hong Kong:

This report is distributed in Hong Kong by Motilal Oswal Capital Markets (Hong Kong) Private Limited, a licensed corporation (CE AYY-301) licensed and regulated by the Hong Kong Securities and Futures Commission (SFC) pursuant to the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) "SFO". As per SEBI (Research Analyst Regulations) 2014 Motilal Oswal Securities (SEBI Reg. No. INH000000412) has an agreement with Motilal Oswal Capital Markets (Hong Kong) Private Limited for distribution of research report in Hong Kong. This report is intended for distribution only to "Professional Investors" as defined in Part I of Schedule 1 to SFO. Any investment or investment activity to which this document relates is only available to professional investor and will be engaged only with professional investors." Nothing here is an offer or solicitation of these securities, products and services in any jurisdiction where their offer or sale is not qualified or exempt from registration. The Indian Analyst(s) who compile this report is/are not located in Hong Kong & are not conducting Research Analysis in Hong Kong.

For U.S.

Motilal Oswal Financial Services Limited (MOFSL) is not a registered broker - dealer under the U.S. Securities Exchange Act of 1934, as amended (the "1934 act") and under applicable state laws in the United States. In addition MOFSL is not a registered investment adviser under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act" and together with the 1934 Act, the "Acts"), and under applicable state laws in the United States. Accordingly, in the absence of specific exemption under the Acts, any brokerage and investment services provided by MOFSL, including the products and services described herein are not available to or intended for U.S. persons. This report is intended for distribution only to "Major Institutional Investors" as defined by Rule 15a-6(b)(4) of the Exchange Act and interpretations thereof by SEC (henceforth referred to as "major institutional investors"). This document must not be acted on or relied on by persons who are not major institutional investors. Any investment or investment activity to which this document relates is only available to major institutional investors and will be engaged in only with major institutional investors. In reliance on the exemption from registration provided by Rule 15a-6 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act") and interpretations thereof by the U.S. Securities and Exchange Commission ("SEC") in order to conduct business with Institutional Investors based in the U.S., MOFSL has entered into a chaperoning agreement with a U.S. registered broker-dealer, Motilal Oswal Securities International Private Limited. ("MOSIPL"). Any business transaction pursuant to this report will have to be executed within the provisions of this chaperoning agreement.

The Research Analysts contributing to the report may not be registered /qualified as research analyst with FINRA. Terms & Conditions:

This report has been prepared by MOFSL and is meant for sole use by the recipient and not for circulation. The report and information contained herein is strictly confidential and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of MOFSL. The report is based on the facts, figures and information that are considered true, correct, reliable and accurate. The intent of this report is not recommendatory in nature. The information is obtained from publicly available media or other sources believed to be reliable. Such information has not been independently verified and no warranty, representation of warranty, express or implied, is made as to its accuracy, completeness or correctness. All such information and opinions are subject to change without notice. The report is prepared solely for informational purpose and does not constitute an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments for the clients. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. MOFSL will not treat recipients as customers by virtue of their receiving this report.

Disclaimer:

The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent. This report and information herein is solely for informational purpose and may not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. Each recipient of this document should make such investigations as it deems necessary to arrive at an independent evaluation of an investment in the securities of companies referred to in this document (including the merits and risks involved), and should consult its own advisors to determine the merits and risks of such an investment. The investment discussed or views expressed may not be suitable for all investors. Certain transactions -including those involving futures, options, another derivative products as well as non-investment grade securities - involve substantial risk and are not suitable for all investors. No representation or warranty, express or implied, is made as to the accuracy, completeness or fairness of the information and opinions contained in this document. The Disclosures of Interest Statement incorporated in this document is provided solely to enhance the transparency and should not be treated as endorsement of the views expressed in the report. This information is subject to change without any prior notice. The Company reserves the right to make modifications and alterations to this statement as may be required from time to time without any prior approval. MOFSL, its associates, their directors and the employees may from time to time, effect or have effected an own account transaction in, or deal as principal or agent in or for the securities mentioned in this document. They may perform or seek to perform investment banking or other services for, or solicit investment banking or other business from, any company referred to in this report. Each of these entities functions as a separate, distinct and independent of each other. The recipient should take this into account before interpreting the document. This report has been prepared on the basis of information that is already available in publicly accessible media or developed through analysis of MOFSL. The views expressed are those of the analyst, and the Company may or may not subscribe to all the views expressed therein. This document is being supplied to you solely for your information and may not be reproduced, redistributed or passed on, directly or indirectly, to any other person or published, copied, in whole or in part, for any purpose. This report is not directed or intended for distribution to, or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL to any registration or licensing requirement within such jurisdiction. The securities described herein may or may not be eligible for sale in all jurisdictions or to certain category of investors. Persons in whose possession this document may come are required to inform themselves of and to observe such restriction. Neither the Firm, nor its directors, employees, agents or representatives shall be liable for any damages whether direct or indirect, incidental, special or consequential including lost revenue or lost profits that may arise from or in connection with the use of the information. The person accessing this information specifically agrees to exempt MOFSL or any of its affiliates or employees from, any and all responsibility/liability arising from such misuse and agrees not to hold MOFSL or any of its affiliates or employees responsible for any such misuse and further agrees to hold MOFSL or any of its affiliates or employees free and harmless from all losses, costs, damages, expenses that may be suffered by the person accessing this information due to any errors and delays.
