Fundamental Actionable Idea

Bharat Electronics

CMP INR403, TP INR490, 22% Upside, BUY, MTF Stock

- BEL has secured fresh orders worth ₹712 crore covering IT infra, cyber security, ESM systems, blockchain and communication projects.
- In the remaining nine months of FY26, BHE plans to execute several large-scale programs contributing to its revenue growth target of over 15%.
- The order book was strong at INR749b and order inflows stood at INR76b. The company has maintained its guidance on revenue and order inflows and expects margins to remain strong at 27%. We expect the company to benefit from emergency procurement and the finalization of larger platform orders from the Army, Navy and Air Force. We also expect BHE to benefit from incremental opportunities in exports as defense spending increases globally.

Fundamental Actionable Idea

Swiggy

CMP INR437, TP INR560, 28% Upside, BUY, MTF Stock

- Swiggy has launched a new standalone app called 'Toing' targeting price conscious consumers in Pune. The app offers affordable meal options priced between Rs100-150, specifically designed for students and young professionals.
- Additionally Swiggy is looking to sell its 12% stake in Rapido which it had bought for \$180 million in 2022.
- Swiggy has paused further store expansion in quick commerce, indicating that its current footprint of 4.3m sq ft across 1,000+ dark stores can support 100% YoY growth. This should accelerate margin expansion, aided by operating leverage and reduced fixed costs.
- FD GOV rose 18.8% YoY—its second-best growth in nine quarters—despite a seasonally weak Q1. Swiggy's 10-minute format, Bolt, now continues to account for 10-12% of FD orders, with unit economics close to the platform average due to tighter delivery radius and lower delivery fees. We expect continued GOV momentum as Swiggy scales newer formats and penetrates deeper into Tier-2 cities.
