Strong Exports, Positive Macroeconomic Factors to Drive Growth

BJAUT saw a muted performance in the domestic market in Q4FY25. This was offset by a significant 20% YoY growth in export volumes for the quarter. The company expects exports to grow 15-20% YoY in the near term (Exports accounted for ~40% of total volume in FY25). We believe BJAUT will continue this growth momentum in exports and we expect the export segment to grow 15.5%/12.4% for FY26/FY27. We believe Latin America to be the biggest growth driver for exports going forward with the region becoming BJAUT's largest emerging market, with export growth for the region at 18% in Q4FY25. BJAUT also plans to expand the Brazil plant capacity to 50K units from the current capacity of 30k units.

Going forward we expect to see some respite in the domestic industry led by macroeconomic factors like positive GDP growth for Q4FY25 which came in at 7.4%, significantly exceeding expectations and signaling strong economic momentum and expectation of 'above normal' monsoon for FY25 forecasted by IMD. Also, BJAUT is focusing on new product launches like Erickshaw and new models in the Chetak series to improve its market share in the domestic market.

We revise our FY26/27 EPS estimates downward by 7.8%/12.0% and maintain our 'BUY' rating with a revised target price of INR 9,750; valuing the company at 26x (unchanged) on FY27E EPS.

BJAUT reported an in line result compared to estimates

- Revenue for Q4FY25 was at INR 1,21,480Mn, up 5.8% YoY and down 5.1% QoQ (vs consensus est. at INR 1,21,130Mn) led by 3.2% YoY growth in volume and 2.5% YoY growth in ASP.
- EBITDA for Q4FY25 was at INR 24,506Mn, up 6.3% YoY and down 5.0% QoQ (vs consensus est. at INR 24,341Mn). EBITDA margin was up 9bps YoY and up 2bps QoQ at 20.2% (vs consensus est. at 20.1%).
- PAT for Q4FY25 was at INR 20,493Mn, up 5.9% YoY and down 2.8% QoQ (vs consensus est. at INR 20,131Mn).

Focus on increasing market share with new launches: While the domestic market showed slow growth, BJAUT is focusing on introducing new models and variants to cater to different customer choices and increase market share, particularly in the 125cc plus segments. The company plans on launching an e-rickshaw, and enhancing the Chetak series. The E-3W market share in FY25 increased to 33% from 17% in FY24 and for the Chetak electric scooter market share was 25% in Q4FY25 compared to 13% in Q4FY24. Given the company's performance in the EV segment along with a rich product pipeline, we believe BJAUT is poised to perform well in these segments.

This "Report" has no regard to the specific investment objectives, financial situation or particular needs of any specific recipient, even if sent only to a single recipient. This "Report" is not guaranteed to be a complete statement or summary of any securities, markets, reports or developments referred to in this research report. Neither CEBPL nor any of its directors, officers, employees or agents shall have any liability, however arising, for any error, inaccuracy or incompleteness of fact or opinion in this "report" or lack of care in this reports preparation or publication, or any losses or damages which may arise from the use of this research report.

Information barriers may be relied upon by CEBPL, such as "Chinese Walls" to control the flow of information within the areas, units, divisions, groups, or affiliates of CEBPL.

Investing in any non-U.S. securities or related financial instruments (including ADINR) discussed in this research report may present certain risks. The securities of non-U.S. issuers may not be registered with, or be subject to the regulations of, the U.S. Securities and Exchange Commission. Information on such non-U.S. securities or related financial instruments may be limited. Foreign companies may not be subject to audit and reporting standards and regulatory requirements comparable to those in effect within the United States. The value of any investment or income from any securities or related financial instruments discussed in this research report denominated in a currency other than U.S. dollars is subject to exchange rate fluctuations that may have a positive or adverse effect on the value of or income from such securities or related financial instruments.

Past performance is not necessarily a guide to future performance and no representation or warranty, express or implied, is made by CEBPL with respect to future performance. Income from investments may fluctuate. The price or value of the investments to which this research report relates, either directly or indirectly, may fall or rise against the interest of investors. Any recommendation or opinion contained in this research report may become outdated as a consequence of changes in the environment in which the issuer of the securities under analysis operates, in addition to changes in the estimates and forecasts, assumptions and valuation methodology used herein.

No part of the content of this research report may be copied, forwarded or duplicated in any form or by any means without the prior written consent of CEBPL and CEBPL accepts no liability whatsoever for the actions of third parties in this respect.
