Gold prices rose as growing tensions in the Middle East sparked safe-haven demand. The U.S. housing market could be showing early signs of stabilizing as sales activity of existing homes falls to its lowest level since June 2020. Fed Bank of New York President John Williams said interest rates need to be restrictive "for some time" to bring inflation back to the 2 percent target.

Price rise dulls activity in India, China premiums fall - The physical gold market in India flipped to a discount as a rebound in domestic prices made buyers walk away, while premiums in China retreated further from recent highs. Dealers in India were offering a discount of up to \$2 an ounce on official domestic prices, versus last week's \$5 premiums, the highest in 17 months. Jewellers were confounded by the price rise and were concerned that higher prices during the upcoming festival season could restrict retail purchases. In China, which reopened after the Golden Week holidays, gold premiums slipped to \$40-\$60 per ounce, compared with \$80-\$100 charged two weeks ago over global benchmark prices, which were set for their best week in seven months.

China's gold imports via Hong Kong rebounded in August from the previous month, data showed on Tuesday, with the issuance of fresh quotas to local banks likely to boost shipments into the world's top gold consumer. Net imports stood at 39.023 metric tons in August, up 51.4% from the previous month, Hong Kong Census and Statistics Department data showed. That was still below the 68.227 tons reported a year earlier. Total gold imports via Hong Kong were up 49.6% on a monthly basis at 45.237 tons, but lower than 71.855 tons in August 2022. Official data showed that the People's Bank of China extended its streak of central bank gold purchases to a tenth straight month at end-August.

Swiss gold exports up in August due to higher shipments to India - Swiss gold exports rose by 7.3% in August from July as higher deliveries to India and China offset lower supplies to Turkey, customs data showed. Switzerland is the world's biggest bullion refining and transit hub, while China and India are the largest consumer markets with local demand sensitive to high prices and time of the season. Supplies to India, where jewellers usually make purchases for the October-November festival season, jumped by almost threefold to their highest since May, while shipments to China rose 1%, the data showed. China's physical gold premiums soared to a new high last week, amid strong demand to shore up a depreciating yuan and a lack of fresh import quotas.
