

HCLTech recognized as a Leader in Everest Group's Software Product Engineering Services PEAK Matrix® Assessment 2024

NEW YORK and NOIDA, India, July 18, 2024—[HCLTech](#), a leading global technology company, has been recognized as a Leader in Everest Group's Software Product Engineering Services PEAK Matrix® Assessment 2024. The recognition underscores HCLTech's services and innovations across the software product lifecycle to help enterprises develop and deliver software products that enhance operational efficiency, productivity and user experiences.

The report notes how HCLTech is driving value and innovation for its clients, drawing on its technical expertise, comprehensive partner ecosystem and emerging deal constructs and pricing models. It highlights HCLTech's robust client relationships, balanced global presence and commitment to developing industry-specific solutions and intellectual property (IP) across pertinent themes including data engineering, cloud, automation, monitoring, AI/ML and cybersecurity.

"As a global leader in Software Product Engineering Services, HCLTech accelerates digital transformation, fosters cross-industry collaboration and creates value across the entire product value chain. Our chip-to-cloud capabilities, combined with strategic investments in digital engineering, AI and GenAI, set us apart in this segment, enabling enterprises to create new revenue streams at every stage of their digital transformation journey," said Hari Sadarahalli, Corporate Vice President and Global Head, Engineering and R&D Services, HCLTech.

"HCLTech has cemented its leadership through offerings spanning the entire value chain, a well-diversified portfolio across verticals, a strong partner ecosystem and willingness to engage with clients via non-conventional commercial constructs," said Mayank Maria, Vice President at Everest Group. "The firm is also proactive in developing IP solutions and labs in areas such as cloud, automation, data engineering, AI/ML and monitoring. Customers value HCLTech for its strong technical expertise and ability to bring innovative ideas to engagements."
