Gold dropped as dollar index held above the 100 mark as the Federal Reserve left interest rates unchanged but signaled increasing support for rate hikes later this year. Half of FOMC members now project at least one rate increase in 2026, while the central bank sharply raised its inflation forecasts amid the economic impact of the conflict in the Middle East. Meanwhile, new Fed Chair Kevin Warsh declined to offer guidance on the next policy move but stressed that inflation has remained above the Fed's 2% target for several years and reaffirmed the central bank's commitment to restoring price stability. On the geopolitical front, President Donald Trump signed an interim agreement to end the war with Iran and reopen the Strait of Hormuz, though it remains unclear whether Iran has already begun implementing measures to fully reopen the critical shipping route.

India gold demand ticks up as prices slip; China premiums ease - Gold demand in India improved slightly as softer prices drew in jewellery buyers even as caution prevailed, while premiums in China eased. Dealers quoted discounts of up to \$35 an ounce over official domestic prices, down from last week's discounts of up to \$87. While jewellers have started restocking, purchases remain measured as confidence in retail demand for the coming months is still weak. India's physically backed gold exchange-traded funds logged their first net monthly outflow in a year in May, as investors booked profits following a sharp rise in prices triggered by higher import duties. In top consumer China, bullion traded at premiums of \$1 to \$5 an ounce over the global benchmark price, down from \$7 to \$10 premiums last week. In Hong Kong, gold traded between par and a \$1.90 premium, while in Japan, it was sold at a discount of \$0.50. In Singapore, gold was sold between a \$0.50 discount and a \$2 premium.

Swiss gold exports drop 20% in April as deliveries to UK fall - Gold exports from Switzerland in April fell 20% from the previous month as shipments to Britain and China slowed, offsetting higher deliveries to India and Hong Kong, Swiss customs data showed. The world's biggest bullion refining and transit hub's deliveries to the UK fell to 35.5 metric tons from 57.6 tons in March. Britain is home to the world's largest over-the-counter gold trading hub. Supplies to China, a major bullion consumer, eased by 19% to 30.5 tons while shipments to India climbed to 6.5 tons from 3.5 tons in March.

China's April net gold imports via Hong Kong rise 81.2% from March - China's net gold imports via Hong Kong rose 81.2% in April from the previous month, Hong Kong Census and Statistics Department data showed. The world's top gold consumer imported a net 86.715 metric tons in April, up from 47.866 tons in March, and marked its 13th straight monthly increase, the data showed. The Hong Kong data may not provide a complete picture of Chinese purchases because gold is also imported via Shanghai and Beijing. China's bullion buying patterns can influence global trends and markets. China's total gold imports via Hong Kong stood at 99.327 tons in April, up around 24.8% from March's 79.576 tons. Earlier this month, data from the People's Bank of China showed the central bank loaded up on gold for an 18th straight month in April. The country's gold reserves have added up to 74.64 million fine troy ounces by the end of April, versus the previous month's 74.38 million.

India raises gold and silver tariffs to 15% to curb imports, support rupee - India has raised import tariffs on gold and silver to 15% from 6%, government orders said, as part of efforts to curb overseas purchases of the metals and ease pressure on the country's foreign exchange reserves. The higher duties could dampen demand in the world's second-largest consumer of precious metals, although they may help narrow India's trade deficit and support the rupee, one of Asia's worst-performing currencies. However, industry officials warned higher import taxes could revive smuggling, which had eased after India cut tariffs in mid-2024. The government has imposed a 10% basic customs duty and a 5% Agriculture Infrastructure and Development Cess (AIDC) on gold and silver imports, taking the effective import tax to 15% from 6%. Inflows into India's gold exchange-traded funds (ETFs) surged 186% year-on-year in the March quarter to a record 20 metric tons, the World Gold Council said last month.
