Gold dropped as the U.S. labor market continues to fire on all cylinders. At the same time, higher wages are creating further disappointment for investors expecting the Federal Reserve to cut rates in March. U.S. nonfarm payrolls rose by 353,000 last month, according to the Bureau of Labor Statistics. At the same time, the unemployment rate remained unchanged at 3.7%; expected the rate to rise to 3.8%.

Stimulus, New Year cheer ignites China demand, India awaits budget - China's physical gold premiums climbed as additional stimulus measures aided sentiment days before Lunar New Year celebrations begin in the top buyer, while Indian retail consumers and jewellers showed limited interest ahead of a federal budget. Premiums surged, suggesting investors are anticipating further market rescue measures and potential buying sprees ahead of the upcoming Lunar New Year. Chinese dealers quoted premiums of \$46-\$57 per ounce over spot prices, up from last week's \$42-\$54.2 range. In India, dealers were offering a discount of up to \$9 an ounce over official domestic prices, unchanged from last week as buyers remained on sidelines ahead of the budget to be presented on Feb. 1. India's commerce ministry has backed a long-standing demand from the jewellery industry to reduce import tariffs on gold bars, government and industry officials said. In Japan, dealers sold gold at par to \$1 premiums.

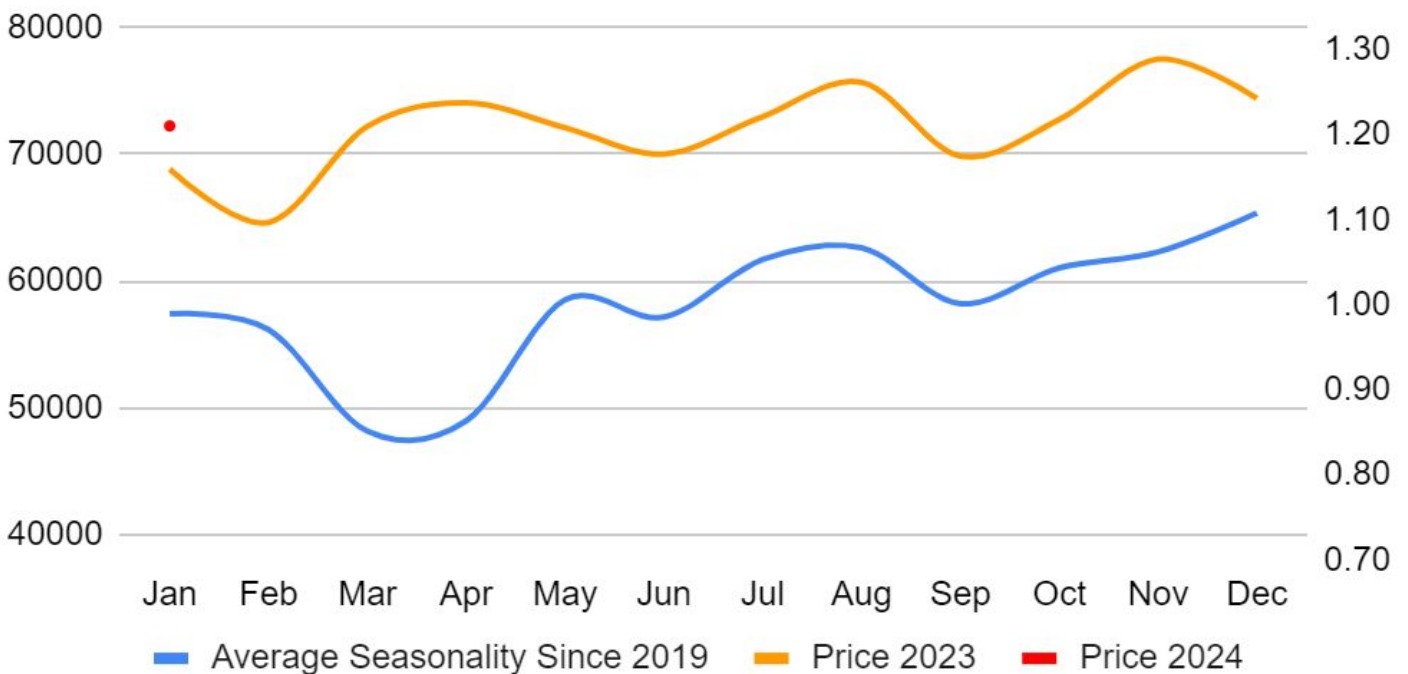

China's December net gold imports via Hong Kong jump 37% m/m - China's net gold imports via Hong Kong jumped about 37% in December from the previous month, Hong Kong Census and Statistics Department data showed. Net imports into the world's top gold consumer stood at 50.381 metric tons in December, compared with 36.801 tons in November, the data showed. Total gold imports via Hong Kong were up 29% at 59.589 tons.

Swiss gold exports down in December amid high prices - Swiss gold exports fell slightly in December vs November amid lower shipments to India and high prices, customs data showed. Switzerland is the world's biggest bullion refining and transit hub, while India and China are the largest consumer markets where local demand depends on the season and is sensitive to high gold prices. Meanwhile, China's Lunar New Year celebrations are approaching, which could mean a buying spree in February, while Indian jewellers are waiting for a federal budget review on Feb. 1, anticipating a possible cut in the import duty for gold bars.
