About the product

As the tagline suggests, **BULLS & BEARS** is a monthly handbook on valuations in India. It covers:

- Valuations of Indian market vs. global markets
- Current valuations of companies across sectors
- Sectors that are currently valued at a premium/ discount to their historical long-period average

NOTES:

- Prices as of month end Jun'25
- BULL icon: Sectors trading at a premium to their historical average
- BEAR icon: Sectors trading at a discount to their historical average
- Valuations are on a 12-month forward basis, unless mentioned otherwise
- Sector valuations are based on MOFSL coverage companies
- Data on global equities is sourced from Bloomberg; Nifty valuations are based on MOFSL estimates

Investors are advised to refer to the important disclosures appended at the end of this report.

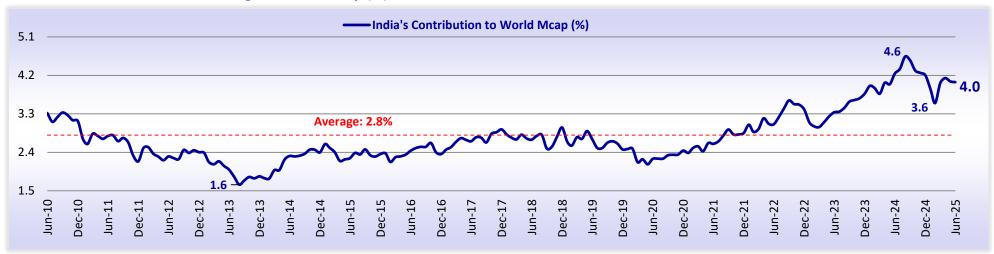

Strategy

Market continues its winning streak; Nifty closes above 25k in Jun'25

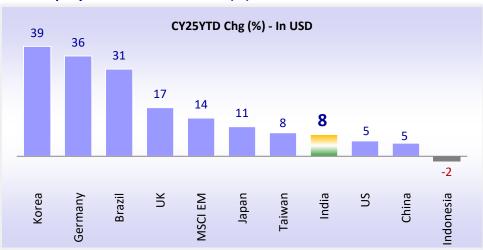

- Nifty closes above 25k after nine months: The Nifty ended higher for the fourth successive month in Jun'25 (+3.1% MoM) to close above 25k after Sep'24 (to 25,517). Notably, the index continued to remain volatile and hovered around 1,196 points before closing 766 points higher. The Nifty is up 7.9% in CY25YTD. The Nifty Smallcap 100 (+6.7% MoM) and Nifty Midcap 100 (+4% MoM) outperformed the Nifty-50 during the month. Over the last 12 months, largecaps and midcaps have gained 6% and 7%, respectively, outperforming smallcaps, which have risen 4%. During the last five years, midcaps (CAGR: 32.4%) have significantly outperformed largecaps (CAGR: 19.9%) by 158%, while smallcaps (CAGR: 32.8%) have markedly outperformed largecaps by 165%.
- FIIs record inflows for the fourth consecutive month: FIIs were net buyers for the fourth consecutive month, investing USD2.4b in Jun'25. DIIs also showed healthy inflows, amounting to USD8.5b in Jun'25. FII outflows from Indian equities have reached USD8.2b in CY25YTD vs. outflows of USD0.8b in CY24. DII inflows into equities remain robust at USD41.5b in CY25YTD vs. USD62.9b in CY24.
- All major sectors end higher in Jun'25: Among the sectors, Telecom (+6%), Infrastructure (+5%), Technology (+4%), Real Estate (+4%), and Metals (+4%) were the top gainers MoM, while Consumer (-1%) was the only laggard. The breadth was favorable in Jun'25, with 39 Nifty stocks ending higher. Jio Financial (+14%), Grasim (+12%), Eternal (+11%), Shriram Finance (+11%), and Trent (+10%) were the top performers, while Tata Motors (-4%), Bajaj Auto (-3%), HUL (-2%), Hero Motocorp (-2%), and Coal India (-1%) were the key laggards.
- Major economies end higher in Jun'25: Among the key global markets, Korea (+14%), Japan (+7%), MSCI EM (+6%), the US (+5%), Taiwan (+4%), India (+3%), China (+3%), and Brazil (+1%) ended higher MoM in local currency terms in Jun'25. However, Indonesia (-3%), Germany (-0.4%), and the UK (-0.1%) ended lower MoM. Over the last 12 months in USD terms, the MSCI India Index (+1%) has underperformed the MSCI EM Index (+13%). Over the last 10 years, the MSCI India Index has notably outperformed the MSCI EM Index by a robust 90%. In P/E terms, the MSCI India Index is trading at a 74% premium to the MSCI EM Index, slightly below its historical average premium of 80%.
- Earnings Corporate profit-to-GDP standing tall at a 17-year high!: In 2025, the corporate profit-to-GDP ratio for the Nifty-500 Universe remained at 4.7%, marking a 17-year high. Notably, for listed India Inc., the ratio stood at 5.1%, at a 14-year high. The sustained profit-to-GDP ratio for the Nifty-500 was positively influenced by sectors such as Telecom (which shifted from being a negative contributor for the past seven years to a positive contributor in FY25), PSU Banks (with a 0.07% increase in the ratio), Healthcare (a 0.04% rise), Consumer (a 0.04% increase), Metals (a 0.03% rise), and Infrastructure (a 0.2% increase). In contrast, sectors that experienced a decline in the ratio included Oil & Gas (a 0.28% decline), Automobiles (a dip of 0.03%), Cement (a decline of 0.02%), Utilities (a dip of 0.02%), Private Banks (a decline of 0.01%), and Retail (a dip of 0.01%; Detailed report).
- Our view: Amid geopolitical tensions and slowing global growth, India's macroeconomic outlook presents a contrasting picture. India's nominal GDP grew 9.8% in FY25, surpassing market expectations, and is projected to accelerate further to 10.8% in FY26. Although corporate profit growth moderated in FY25 due to a high base set in FY24, a slowdown in government spending during 1HFY25 amid elections, weak consumption, and volatile exports led by global uncertainties, we expect a gradual recovery ahead. The market has rebounded notably over the last three months, completely reversing its YTD decline. Currently, the Nifty is trading 7.9% higher in CY25YTD. With this rally, the Nifty trades at 22.5x FY26E earnings, near its LPA of 20.7x. Our model portfolio stance remains unchanged, with a distinct bias towards largecaps and domestic plays, given the current volatile backdrop. We are OW on BFSI, Consumer Discretionary, Industrials, Healthcare, IT, and Telecom, while we are UW on Oil & Gas, Cement, Automobiles, Real Estate, and Metals.
- Top ideas: Largecaps Reliance Industries, Bharti Airtel, ICICI Bank, L&T, Kotak Mahindra Bank, Titan, M&M, Trent, and Tech Mahindra; Midcaps and Smallcaps Indian Hotels, HDFC AMC, BSE, Suzlon Energy, Dixon Tech., SRF, Jindal Stainless, Coforge, Page Industries, Kaynes Tech, and LT Foods.

Deep-dive

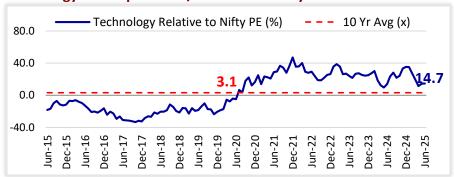

Technology: Uncertainty persists, but eyes are on 2Q deal flow and GenAI uptick

- Demand environment remains uncertain, with spending patterns broadly unchanged. We believe that current geopolitical and macro risks continue to keep recovery range-bound. This uncertainty has made global enterprises cautious as they await the macro challenges to moderate before they start funding the large transformation and discretionary-led programs. While deal signings remained subdued, widespread project deferrals or ramp-downs were largely avoided.
- The real focus now shifts to 2Q deal signings and commentary on GenAldriven programs. While discretionary budgets remain under pressure, client interest in high-ROI tech initiatives is improving. Further, the impact of the tariff-related pause turned out to be milder than initially feared. This is also reflected in the recent recovery in Indian IT stock prices, with the broader market indicating that concerns around US tariffs have been largely digested.
- Margins are likely to stay range-bound soft supply-side pressures help, but seasonal costs (e.g., visas) and sluggish revenue growth limit upside. We believe a sector-wide re-rating still hinges on a fresh tech cycle and earnings upgrades. Early signs of improving deal win rates, particularly in midcaps, coupled with supportive macro (potential rate cuts, stable dollar) could revive sentiment.
- The one-year forward P/E for IT stocks (MOFSL Universe) stands at 24.8x. Tier-2 stocks are at 33x, a ~30% premium to the Tier-1 pack (25x). Among Tier-1 players, HCLT (25x 1-yr fwd) is one of the key beneficiaries of having all-weather business mix, which should support its growth in the current environment. Its investments in next-gen platforms also position it well for a recovery in client spending. In Tier-2 stocks, we prefer COFORGE (39x 1-yr fwd), given its strong offerings in BFS and insurance should enable it to participate in a demand recovery, and a strong TCV also indicates a robust near-term growth outlook.

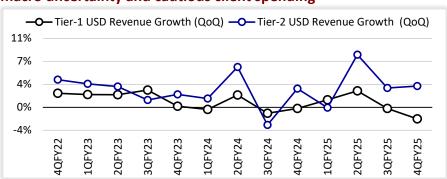

Technology sector premium/discount to Nifty

IT services revenue growth moderated in 2HFY25, weighed down by macro uncertainty and cautious client spending

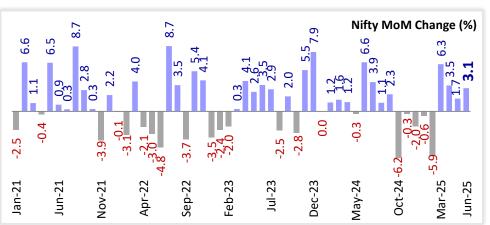

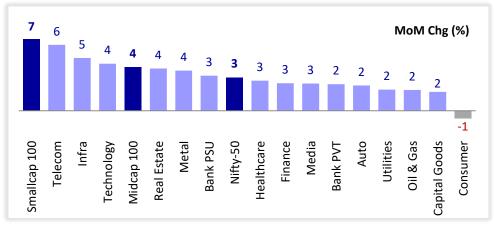

Nifty closes above 25k; adds 766 points (+3.1% MoM) in Jun'25

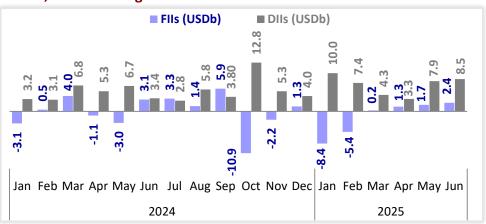

- The Nifty closed higher for the fourth successive month in Jun'25 (3.1% MoM gain) to close above 25k after Sep'24 to 25,517. Notably, the index continued to remain volatile and hovered around 1,196 points before closing 766 points higher. The Nifty is up 7.9% in CY25YTD.
- All major sectors ended higher Telecom (+6%), Infrastructure (+5%), Technology (+4%), Real Estate (+4%), and Metals (+4%) were the top gainers MoM, while Consumer (-1%) was the only laggard.

Sector valuations

Two-thirds of the sectors trade at a premium to their historical averages

- The NBFC sector is trading at a P/B ratio of 2.3x, at ~22% premium to its long-term average of 1.9x. The RBI has cumulatively reduced rates by 100bp, lowering the reporate to 5.5% from 6.5%. In addition, the central bank has shifted back its monetary policy stance from an accommodative to a neutral position. The interest rate cut could lead to transitory NIM compression for large HFCs owing to the pressure on yields from higher competitive intensity. On the other hand, vehicle financiers and affordable housing companies will be the key beneficiaries of the declining interest rate environment for all of FY26.
- The Healthcare sector's P/E valuation has been stable for the past two months at 32.2x after slipping to 29.5x in Feb'25. Having said this, it is still lower than the 36x achieved in Sep'24. It, however, remains at a 19% premium to the 10-year average. The reduction in apprehension related to the US tariff on the generics industry as well as the government policy to encourage Make in India has curbed further correction in sector multiple.
- The Technology sector is trading at a P/E ratio of 24.8x, at a 17% premium to its long-term average of 21.2x. The NSEIT Index saw upward movement in stock prices over the past two months the broader Nifty IT Index is now 6% above its pre-liberation day level, indicating that the fears of US tariffs have not materialized and the market has quickly digested this issue.

Automobiles

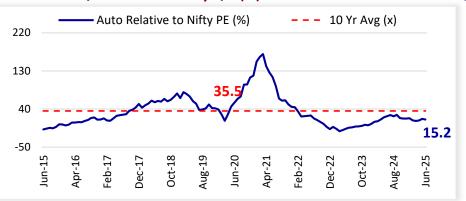

Two wheelers begin FY26 on a weak note

- The Auto sector is trading at a P/E of 24.9x, below its 10-year historical average of 28.2x (at a 12% discount). On a P/B basis, however, it is trading at a 14% premium (3.9x) to its 10-year average of 3.5x. In Jun'25, demand has not recovered for any of the segments. While the expectation for the 2W segment is that it is likely to post high single-digit growth in FY26E, the sector has started off on a weak note and is likely to end Q1 with a high single-digit decline.
- The PV segment is likely to post 2-4% growth for FY26E, and the segment is so far tracking this expectation for 1Q. For CVs, while the expectation is for a mid single-digit growth for FY26, the industry is likely to deliver flat growth for 1Q. The tractor segment continues to be in line with 1Q expectations of high single-digit growth. The export-focused companies continue to face demand uncertainty given the ongoing tariff wars globally.
- The Auto stocks have recently seen a resurgence with the market recovery. However, the earnings outlook remains tepid given an uncertain demand outlook and risk of input cost pressure.

Automobile P/B relative to Nifty P/B (%)

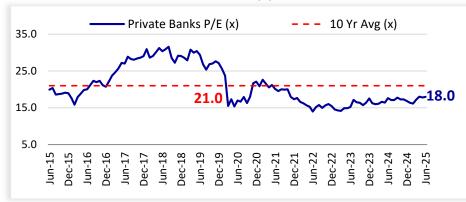

COMPANY VALUATION

Private Banks

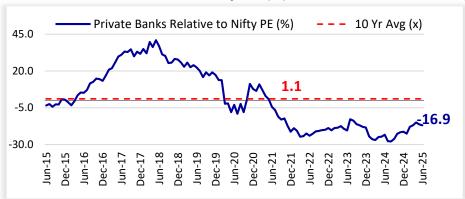

Growth to remain muted; rate cuts to keep margins under pressure

- The Private Banks sector is currently trading at its historic average P/B ratio of 2.5x; it recovered from the lows of 1.8x.
- Credit growth plunged to 8.9% YoY. Against this backdrop and a modest economic growth outlook, we expect credit growth to remain subdued at 11.5% YoY in FY26E before gradually recovering to 13% in FY27E. Growth in corporate was sluggish, and unsecured loan growth moderated sharply amid stress in MFI, PL, and CC, further exerting pressure on portfolio growth and overall lending yields.
- We believe that NII growth shall continue to grow at a moderate pace with slow business momentum due to declining policy rates in FY26E. Margins are likely to remain under pressure as loan repricing happens in the coming quarters, though the reduction in SA/TD rates and CRR (effective Sep'25) will help to limit the damage.
- Delinquencies were high in unsecured segments. However, early-stage delinquencies are showing signs of improvement, which will help ease credit costs from 2HFY26.

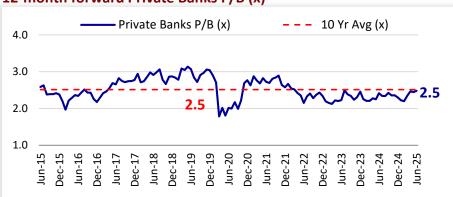

12-month forward Private Banks P/E (x)

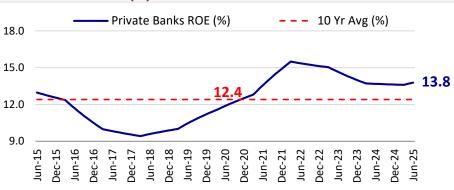

Private Banks P/E relative to Nifty P/E (%)

12-month forward Private Banks P/B (x)

Private Banks ROE (%)

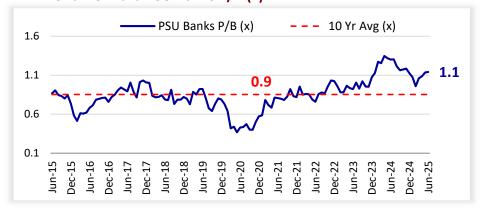

PSU Banks

Earnings outlook modest amid margin pressure and slow growth

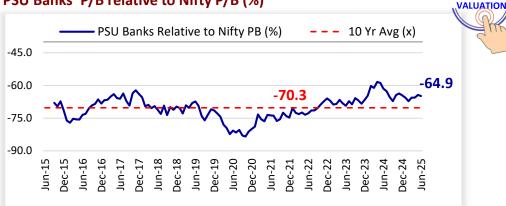

- The PSU Banks sector now trades at a P/B of 1.1x, at a 34% premium to the historical average of 0.9x.
- Systemic credit growth stood at ~8.9% YoY vs. the avg. 16% seen over the prior three years. Business growth for PSBs has remained modest, with margins under pressure; this weakens the profitability outlook.
- Notwithstanding the high MCLR-linked book, we expect downward pressure on margins for PSU banks due to muted loan growth and their inability
 to pass on higher MCLR rates to customers and maneuver the asset mix toward high-yielding products.
- Slippages have remained under control for most banks, reflecting no imminent signs of stress. However, the normalization of credit cost toward the end of FY26, along with ECL provisioning requirements, will be closely monitored.
- For PSU banks, RoA has largely matured, and we expect earnings growth to lag loan growth over FY25-27, though treasury lift may support near-term earnings.

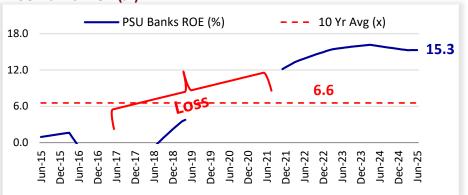

12-month forward PSU Banks P/B (x)

PSU Banks' P/B relative to Nifty P/B (%)

PSU Banks' ROE (%)

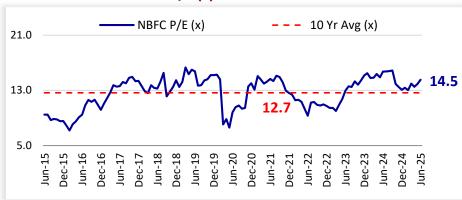

NBFC

Margin to expand, but demand environment still tepid; expect a much better 2H

- The NBFC sector is trading at a P/B ratio of 2.3x, at ~22% premium to its long-term average of 1.9x.
- The RBI has cumulatively reduced rates by 100bp, lowering the reportate from 6.5% to 5.5%. In addition, the central bank has shifted back its monetary policy stance from an accommodative to a neutral position. The interest rate cut could lead to transitory NIM compression for large HFCs owing to the pressure on yields from higher competitive intensity. Conversely, vehicle financiers and affordable housing companies will be the key beneficiaries of the declining interest rate environment for all of FY26.
- NBFC-MFIs exhibited an improvement in PAR levels across most states during the quarter, except for Karnataka. Collection efficiency in Karnataka is expected to normalize by the end of 1HFY26. Further, MFIs shared that the Tamil Nadu Bill has had no material impact on collection efficiencies.
- We expect seasonally weak trends in asset quality for all retail product segments, particularly Vehicle Finance and Secured MSME. While the quantum of new flows has reduced in MFI, stress/flow forwards of prior quarters will keep credit costs elevated in 1HFY26.

12-month forward NBFC P/E (x)

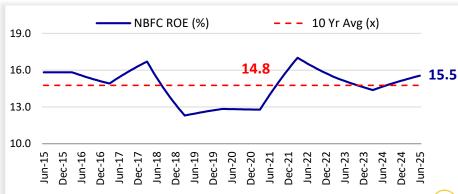

NBFC P/E relative to Nifty P/E (%)

12-month forward NBFC P/B (x)

NBFC ROE (%)

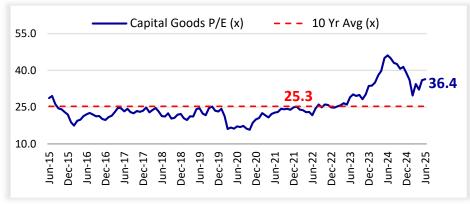

Capital Goods

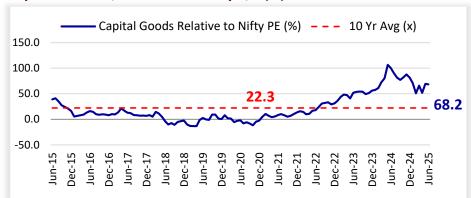

Ordering momentum poised to pick up on capex revival

- The Capital Goods sector is trading at 36.4x one-year forward P/E, above its 10-year avg. of 25.3x (at a 44% premium), indicating a premium valuation. The premium in valuation has, however, corrected from the last six months' peak due to lower-than-expected capex recovery & budget allocation and muted ordering momentum. On a P/B basis, it is trading at 6.8x, at a 75% premium to its 10-year avg. multiple of 3.9x.
- Macro drivers remain strong from emerging sectors such as renewables, electronics, data centers, and EVs, et al. Conversely, the traditional sectors such as steel, petrochemicals, and cement have been sluggish, while the railway sector is starting to pick up. Defense and transmission emerged as key growth drivers for order inflows in the sector. International ordering has been strong for renewables and EPC sectors. However, a broad-based revival in order inflows was notably absent, especially from central government and private sector players.
- The impact of the Union Budget's lower-than-expected capex allocation on order inflows is poised to recover for industrial stocks. We believe it would be prudent to have a selective approach towards the sector, focusing on players capable of coming through near-term volatility.

Cement

Pricing and demand soften as monsoon sets in

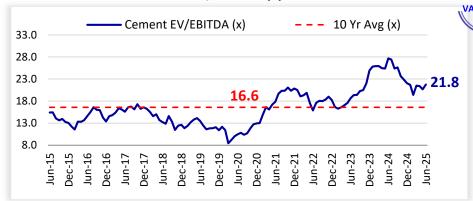

- The Cement sector is trading at a one-year forward EV/EBITDA of 21.8x, at a 31% premium to its historical average of 16.6x.
- Due to sluggish demand trends since the beginning of 1QFY26, followed by regional challenges (heat wave, unseasonal rains, labor unavailability), we estimate industry demand growth in low to mid-single digits YoY in 1QFY26, despite having a low base.
- Cement pricing momentum moderated in Jun'25, with the all-India average price declining by ~1% MoM. The average cement price declined INR7/bag (~2%) in the South and INR5/bag (~1%) in the East. While, in the North, Central, and West regions, prices remained stable MoM. We believe the all-India average cement price was up ~5% QoQ in 1QFY26, aided by price hikes in Apr-May'25.
- Fuel prices continued to be range-bound, supporting profitability. At spot prices, the imported petcoke consumption cost stood at INR1.24/Kcal, and the imported coal consumption cost stood at USD1.41/Kcal.

Consumer

Stable demand; price hikes taken to offset RM inflation

- The Consumer sector's P/E, at 41.5x, is near to its 10-year average of 42.0x. Its P/B stands at 10.3x, at an 11% premium, also near to its historical average of 10.2x.
- The demand trends for staples companies remain steady, as seen in 4QFY25.
- Rural demand continues to show gradual improvement, while urban demand remains subdued.
- Companies are implementing calibrated price hikes to offset the raw material cost pressures. The benefits of falling oil prices are expected to be reflected from 2QFY26 or 2HFY26, as current inventories were procured at higher costs.

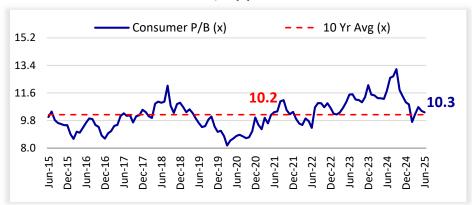

12-month forward Consumer P/E (x)

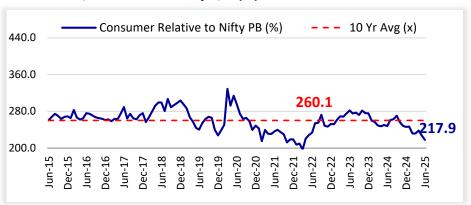

Consumer P/E relative to Nifty P/E (%)

12-month forward Consumer P/B (x)

Consumer P/B relative to Nifty P/B (%)

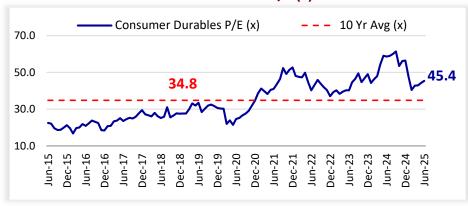

Cons. Durables

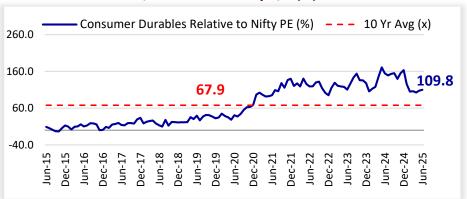

Cooling products lag; cables continue to lead

- The Consumer Durables sector trades at a one-year forward P/E multiple of 45.4x, at a 31% premium to its 10-year average P/E of 34.8x.
- On a P/B basis, the sector trades at 7.5x, at ~36% premium to its 10-year average multiple of 5.5x.
- Demand for cooling products has been adversely impacted by unfavorable weather conditions (low temperature and early monsoon led to a weak summer season). Industry demand saw ~20-25% decline in Apr-May'25. Secondly, so far no material price correction has been observed in the market. However, industry players remain cautious on pricing, preferring a wait-and-watch approach depending on demand-supply dynamics.
- Copper and aluminum prices have increased MoM in May-Jun'25, leading to restocking. We estimate revenue growth for C&W companies in the mid-teens in 1QFY26, led by volume growth.

Consumer Durables P/E relative to Nifty P/E (%)

12-month forward Consumer Durables P/B (x)

Consumer Durables P/B relative to Nifty P/B (%)

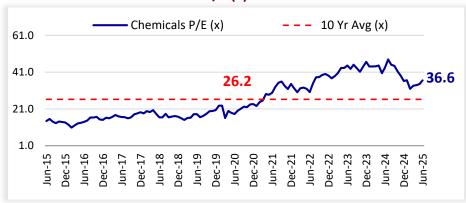

Chemicals

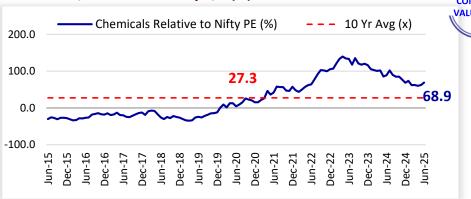

Prices decline due to unstable Brent crude prices

- The sector is trading at a P/B of 4.2x (at a 25% premium) and a P/E of 36.6x (40% premium) vs. its historical average of 3.3x and 26.2x, respectively.
- Brent crude oil price averaged USD72.1/bbl in May'25 (vs. USD64.4/bbl in May'25). It increased ~12% MoM but declined ~12% on a YoY basis.
- Toluene/Benzene prices increased 4%/5% MoM, while Butadiene prices decreased 3% MoM. Propylene prices were down 4% MoM, while Styrene prices increased 2% MoM. Acetonitrile/Phenol prices decreased 3%/2% MoM. Methanol prices increased 2%, while acetone prices decreased 5% MoM. IPA prices dipped 3% MoM, while Aniline prices decreased 1% MoM. Acetic Acid prices dipped 1% MoM.
- Crude prices increased MoM due to geopolitical uncertainty.

Chemicals P/B relative to Nifty P/B (%)

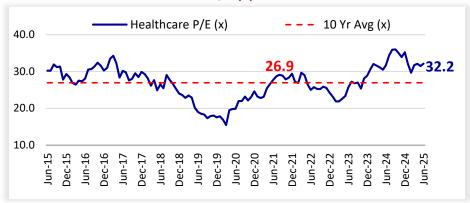

Healthcare

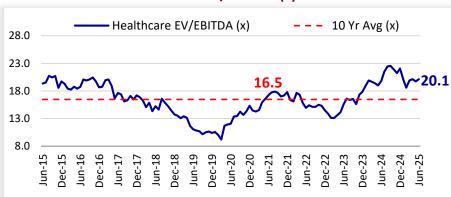

Valuations stable; CDMO/hospitals' outlook robust over the medium term

- The Healthcare sector's P/E valuation has been stable for the past two months at 32.2x after slipping to 29.5x in Feb'25. Having said this, it is still lower than the 36x achieved in Sep'24. It, however, remains at a 19% premium to the 10-year average. The reduction in apprehension related to the US tariff on the generics industry as well as the government policy to encourage Make in India has curbed further correction in sector multiple.
- This is offset to some extent by the subdued outlook in the domestic formulation segment. The drag on volume growth due to the shift towards trade generics, unfavorable seasonality, and reduced support from the inflation-linked price is affecting the pharma sector valuation to some extent.
- The US generics outlook over the near term is likely to moderate due to increased competition in select products for some companies. However, pharma companies continue to invest in building a pipeline of differentiated products to sustain growth momentum and achieve better margins.
- The hospital sector has witnessed consistent effort towards adding land banks and improving occupancy at existing facilities, implying high confidence of management for robust prospects over the medium to long term in this sector.

Infrastructure

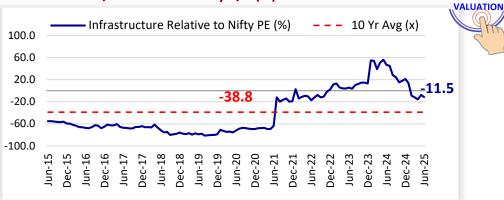

NHAI's order awarding remains muted; toll collections flat MoM

- The Infrastructure sector is trading at a P/B of 1.4x, at a premium of 18% to its long-term historical average of 1.2x.
- NHAI's project awarding has been muted during 1Q FY26, with ~115km being awarded during the period. However, awarding is expected to ramp up in 2H FY26 after below-par awarding activities in FY24 and FY25. Muted awarding activity by NHAI and fierce competition in NHAI projects from new and inexperienced players have hit order inflows for large players.
- Toll collections increased ~6% MoM to INR68b in May'25, with a daily run rate of ~INR2.3b (up ~1% MoM).

12-month forward Infrastructure P/E (x)

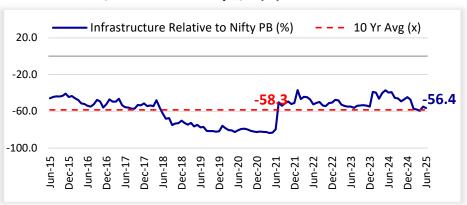

Infrastructure P/E relative to Nifty P/E (%)

12-month forward Infrastructure P/B (x)

Infrastructure P/B relative to Nifty P/B (%)

Logistics

Activity picks up, indicating signs of recovery on a YoY basis

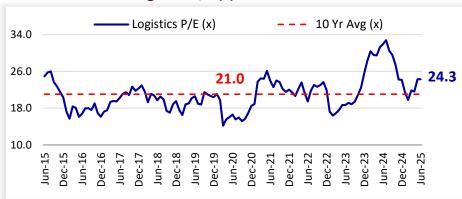

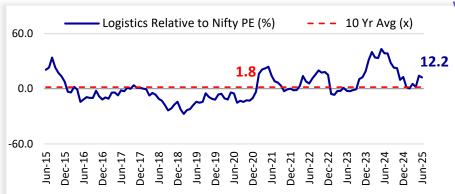

Volume growth is expected to improve with better-than-expected monsoons and a pickup in the rural economy. The operating margins of fleet operators are likely to remain elevated as other expenses, such as truck costs and compliance (GST, e-way bills, etc.), are likely to remain elevated. Upward revisions in freight rates are expected post-budget 2025, which should result in overall margin expansion for fleet operators.

With a structural shift in the formalization of the sector (~85% of the logistics sector is unorganized), aided by the stricter implementation of GST and mandatory e-invoicing, the addressable market size for organized operators will improve going forward.

Logistics P/B relative to Nifty P/B (%)

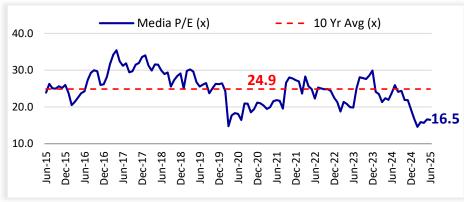

VALUATION

Media

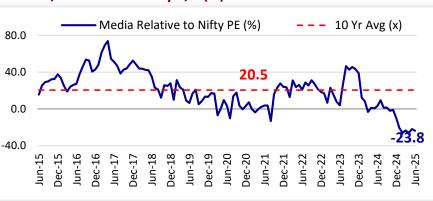

Rising costs force OTT platforms to buddy up

- The P/E ratio for the Media sector, at 16.5x, is at a 34% discount to its 10-year historical average of 24.9x.
- Indian OTT platforms are changing strategies. They are now sharing content rights to manage costs. This shift includes films and even live sports. Recent examples include Tamil and Telugu films on multiple platforms. Sony also sublicensed cricket rights to JioHotstar. Experts believe this trend will continue. It offers cost efficiency and broader reach for content.
- JioHotstar's IPL 2025 season reached one billion viewers. The tournament recorded 840 billion minutes of watch time. Digital views increased 29%. The Royal Challengers Bengaluru vs. Punjab Kings final became the most-viewed match.

Oil & Gas

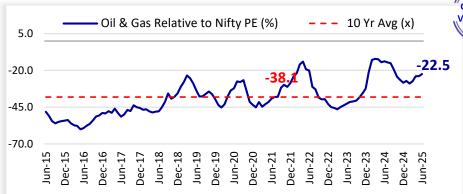

Geopolitical tensions fuel oil prices; marketing margins contract

- The sector is trading at a P/B of 1.7x (at a 14% premium) and a P/E of 16.8x (at a 30% premium) vs. its historical average of 1.5x P/B and 12.9x P/E
- Brent crude oil prices averaged USD70/bbl in Jun'25, up from USD64/bbl in May, driven by heightened Iran-Israel tensions that fueled geopolitical risk premiums and supply disruption concerns.
- SG GRM remained flat at USD6.6/bbl in Jun'25 from USD6.7/bbl in May'25. Diesel cracks over Dubai stood at USD11.4/bbl in Jun'25 (+15% MoM).
 Gasoline cracks over Dubai remained flat at USD10.9/bbl in Jun'25.
- Gross marketing margin for petrol declined 15% MoM to 11.5/lit in Jun'25. Gross marketing margin for diesel also fell to INR10/lit from INR12.5/lit in May'25. The spot LNG price was USD13/mmBtu in Jun'25 (vs. USD11.9/mmBtu in May'25).

Real Estate

India's real estate outlook 2030: Growth fueled by urbanization & technology

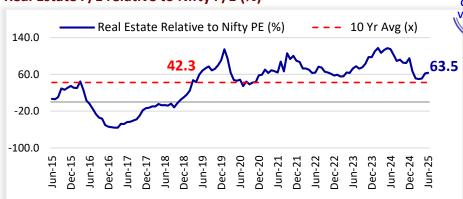

- The Real Estate sector is trading at a P/E of 35.4x, at a 20% premium to its 10-year historical average of 29.6x.
- India's real estate sector is poised for remarkable growth, driven by urbanization, government initiatives, and technological advancements. With the economy expected to grow at a CAGR of 6.5% over the next five years, the sector's contribution to GDP is projected to increase from 7% to 15% by 2030. By 2030, 38% of India's population will reside in urban areas, fostering increased demand for residential and commercial spaces.
- Major interventions such as RERA, PMAY, and the Smart Cities Mission are driving growth and sustainability in Indian real estate.
- Prop-tech, smart homes, and advanced building technologies—like IoT, AI, and cloud-based management—are improving efficiency, reducing costs, and enhancing user experience, while sustainable materials shape the sector's future.

Retail

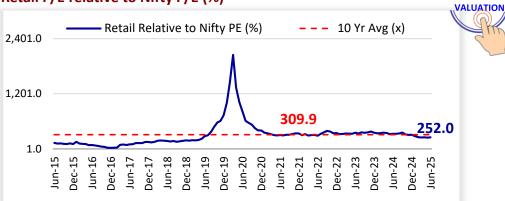

Domestic retail sales record 7% YoY growth in May'25

- The Retail sector is trading at a P/E ratio of 76.2x, which is at a 9% discount to its 10-year historical average of 83.7x.
- After several months of moderate growth of ~4-5%, retail businesses are beginning to show signs of accelerated growth, with sales in May'25 growing 7% YoY. Regional data shows that South India recorded the highest year-on-year growth at 9%. West India recorded a 7% rise, followed by North and East India showing a growth of 6% and 4%, respectively.
- As per the Kearney report, Quick Commerce is rapidly expanding, largely by drawing share from other sales channels. Though supermarkets and e-commerce offer steeper discounts, consumer firms like Marico are tailoring portfolios to tap this growing segment, which now contributes 3–6% of sales and is projected to triple by 2027.

Technology

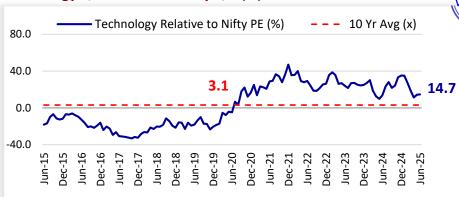

Uncertainty manageable, but re-rating hinges on earnings upgrades

- The sector is trading at a P/E ratio of 24.8x, at a 17% premium to its long-term average of 21.2x. The NSEIT Index saw upward movement in stock prices over the past two months the broader Nifty IT Index is now 6% above its pre-liberation day level, indicating that the fears of US tariffs have not materialized and the market has quickly digested this issue.
- This month, Accenture reported its 3QFY25 earnings. The revenue beat and another upward revision in guidance bode well for Indian IT. However, its commentary on clients diving headfirst into GenAI-led programs contrasts with the stance of Indian vendors, who maintain that deals are still largely focused on cost optimization.
- A re-rating in the sector depends on a new technology cycle emerging, client spending moving from 'run-the-business' spending to 'change-the-business' spending, and meaningful earnings upgrades.

Telecom

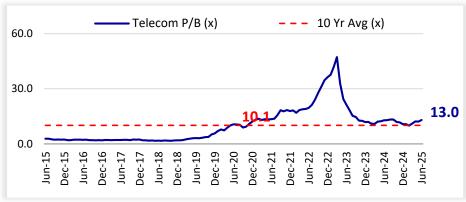

Vodafone Idea aims for a loan of USD2.9b to bolster network

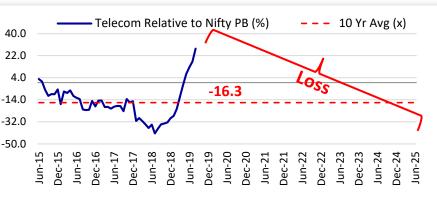

BSNL has entered the 5G fixed wireless access (FWA) market, launching its home broadband service in Hyderabad. This initiative, branded Quantum 5G FWA, is a completely indigenous, SIM-less solution. BSNL plans to expand the pilot project to several other cities by September 2025, offering plans starting at INR999 for 100mbps.

VALUATION

Utilities

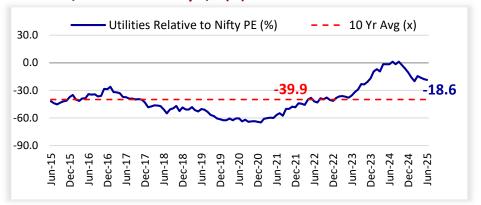

Power demand softens while renewable energy fuels capacity increase

- The Utilities sector is currently valued at a P/B ratio of 2.5x and a P/E ratio of 17.6x, representing premiums of 57% and 41%, respectively, compared to their historical averages of 1.6x and 12.5x.
- In May'25, power demand declined 4% YoY to 148BU primarily due to unseasonal rains and the early arrival of the monsoon in the country.
- The country's peak power demand also fell to 231GW in May'25, compared to 250 GW in May 2024.
- India's power generation capacity increased by 3.1GW in May'25, entirely driven by renewable energy additions, comprising 2.9 GW of solar and 0.2GW of wind capacity. There was no addition to conventional capacity.
- Transmission lines of 262ckm were added during May'25 vs. a target of 1,282ckm.

Explanation of Investment Rating	
Investment Rating	Expected return (over 12-month)
BUY	>=15%
SELL	<- 10%
NEUTRAL	> - 10 % to 15%
UNDER REVIEW	Rating may undergo a change
NOT RATED	We have forward looking estimates for the stock but we refrain from assigning recommendation

*In case the recommendation given by the Research Analyst is inconsistent with the investment rating legend for a continuous period of 30 days, the Research Analyst shall within following 30 days take appropriate measures to make the recommendation consistent with the investment rating legend.

Disclosures:

The following Disclosures are being made in compliance with the SEBI Research Analyst Regulations 2014 (herein after referred to as the Regulations).

Motilal Oswal Financial Services Ltd. (MOFSL) is a SEBI Registered Research Analyst having registration no. INH000000412. MOFSL, the Research Entity (RE) as defined in the Regulations, is engaged in the business of providing Stock broking services, Depository participant services & distribution of various financial products. MOFSL is a listed public company, the details in respect of which are available on www.motilaloswal.com. MOFSL (erstwhile Motilal Oswal Securities Limited - MOSL) is registered with the Securities & Exchange of India Limited (MCX) and National Stock Exchange of India Limited (MCX) and National Commodity & Derivatives Exchange Limited (NCDEX) for its stock broking activities & is Depository participant with Central Depository Services Limited (CDSL) National Securities Depository Limited (NSDL),NERL, COMRIS and CCRL and is member of Association of Mutual Funds of India (AMFI) for distribution of financial products and Insurance Regulatory & Development Authority of India (IRDA) as Corporate Agent for insurance products. Details of associate entities of Motilal Oswal Financial Services Ltd. are available on the website at http://onlinereports.motilaloswal.com/Dormant/documents/Associate%20Details.pdf

Details of pending Enquiry Proceedings of Motilal Oswal Financial Services Limited are available on the website at https://galaxy.motilaloswal.com/ResearchAnalyst/PublishViewLitigation.aspx

MOFSL, it's associates, Research Analyst or their relatives may have any financial interest in the subject company. MOFSL and/or its associates and/or Research Analyst or their relatives may have actual beneficial ownership of 1% or more securities in the subject company at the end of the month immediately preceding the date of publication of the Research Report or date of the public appearance. MOFSL and its associate company(ies), their directors and Research Analyst and their relatives may have any other potential conflict of interests at the time of publication of the research report or at the time of public appearance, however the same shall have no bearing whatsoever on the specific recommendations made by the analyst(s), as the recommendations made by the analyst(s) are completely independent of the views of the associates of MOFSL even though there might exist an inherent conflict of interest in some of the stocks mentioned in the research report.

In the past 12 months, MOFSL or any of its associates may have:

- a. received any compensation/other benefits from the subject company of this report
- b. managed or co-managed public offering of securities from subject company of this research report,
- c. received compensation for investment banking or merchant banking or brokerage services from subject company of this research report,
- d. received compensation for products or services other than investment banking or merchant banking or brokerage services from the subject company of this research report.
- MOFSL and it's associates have not received any compensation or other benefits from the subject company or third party in connection with the research report.
- Subject Company may have been a client of MOFSL or its associates during twelve months preceding the date of distribution of the research report.
- Research Analyst may have served as director/officer/employee in the subject company.
- MOFSL and research analyst may engage in market making activity for the subject company.
- · MOFSL and its associate company(ies), and Research Analyst and their relatives from time to time may have:
- a) a long or short position in, act as principal in, and buy or sell the securities or derivatives thereof of companies mentioned herein.

(b) be engaged in any other transaction involving such securities and earn brokerage or other compensation or act as a market maker in the financial instruments of the company(ies) discussed herein or act as an advisor or lender/borrower to such company(ies) or may have any other potential conflict of interests with respect to any recommendation and other related information and opinions.; however the same shall have no bearing whatsoever on the specific recommendations made by the analyst(s), as the recommendations made by the analyst(s) are completely independent of the views of the associates of MOFSL even though there might exist an inherent conflict of interest in some of the stocks mentioned in the research report.

Above disclosures include beneficial holdings lying in demat account of MOFSL which are opened for proprietary investments only. While calculating beneficial holdings, It does not consider demat accounts which are opened in name of MOFSL for other purposes (i.e holding client securities, collaterals, error trades etc.). MOFSL also earns DP income from clients which are not considered in above disclosures.

To enhance transparency, MOFSL has incorporated a Disclosure of Interest Statement in this document. This should, however, not be treated as endorsement of the views expressed in the report. MOFSL and / or its affiliates do and seek to do business including investment banking with companies covered in its research reports. As a result, the recipients of this report should be aware that MOFSL may have a potential conflict of interest that may affect the objectivity of this report.

Terms & Conditions:

This report has been prepared by MOFSL and is meant for sole use by the recipient and not for circulation. The report and information contained herein is strictly confidential and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of MOFSL. The report is based on the facts, figures and information that are considered true, correct, reliable and accurate. The intent of this report is not recommendatory in nature. The information is obtained from publicly available media or other sources believed to be reliable. Such information has not been independently verified and no guaranty, representation of warranty, express or implied, sell or subscribe for securities or other financial instruments for the clients. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. MOFSL will not treat recipients as customers by virtue of their receiving this report.

Analyst Certification

The views expressed in this research report accurately reflect the personal views of the analyst(s) about the subject securities or issues, and no part of the compensation of the research analyst(s) was, is, or will be directly or indirectly related to the specific recommendations and views expressed by research analyst(s) in this report.

Disclosure of Interest Statement

Nο

A graph of daily closing prices of securities is available at www.nseindia.com, www.nseindia.com, <a href="www.nseindia.com, Research Analyst views on Subject Company may vary based on Fundamental research and Technical Research. Proprietary trading desk of MOFSL or its associates maintains arm's length distance with Research Team as all the activities are segregated from MOFSL research activity and therefore it can have an independent view with regards to subject company for which Research Team have expressed their views.

Regional Disclosures (outside India)

This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL & its group companies to registration or licensing requirements within such jurisdictions.

For Hong Kong:

This report is distributed in Hong Kong by Motilal Oswal capital Markets (Hong Kong) Private Limited, a licensed corporation (CE AYY-301) licensed and regulated by the Hong Kong Securities and Futures Commission (SFC) pursuant to the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) "SFO". As per SEBI (Research Analyst Regulations) 2014 Motilal Oswal Financial Services Limited (SEBI Reg No. INH000000412) has an agreement with Motilal Oswal capital Markets (Hong Kong) Private Limited for distribution of research report in Hong Kong. This report is intended for distribution only to "Professional Investors" as defined in Part I of Schedule 1 to SFO. Any investment or investment activity to which this document relates is only available to professional investor and will be engaged only with professional investors." Nothing here is an offer or solicitation of these securities, products and services in any jurisdiction where their offer or sale is not qualified or exempt from registration. The Indian Analyst(s) who compile this report is/are not located in Hong Kong & are not conducting Research Analysis in Hong Kong.

For U.S.

MOTILAL Oswal Financial Services Limited (MOFSL) is not a registered broker - dealer under the U.S. Securities Exchange Act of 1934, as amended (the "1934 act") and under applicable state laws in the United States. In addition MOFSL is not a registered investment adviser under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act" and together with the 1934 Act, the "Acts), and under

applicable state laws in the United States. Accordingly, in the absence of specific exemption under the Acts, any brokerage and investment services provided by MOFSL, including the products and services described herein are not available to or intended for U.S. persons. This report is intended for distribution only to "Major Institutional Investors" as defined by Rule 15a-6(b)(4) of the Exchange Act and interpretations thereof by SEC (henceforth referred to as "major institutional investors"). This document must not be acted on or relied on by persons who are not major institutional investors. Any investment or investment activity to which this document relates is only available to major institutional investors and will be engaged in only with major institutional investors. In reliance on the exemption from registration provided by Rule 15a-6 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act") and interpretations thereof by the U.S. Securities and Exchange Commission ("SEC") in order to conduct business with Institutional Investors based in the U.S., MOFSL has entered into a chaperoning agreement with a U.S. registered broker-dealer, Motifal Oswal Securities International Private Limited. ("MOSIPL"). Any business interaction pursuant to this report will have to be executed within the provisions of this chaperoning agreement.

The Research Analysts contributing to the report may not be registered /qualified as research analyst with FINRA. Such research analyst may not be associated persons of the U.S. registered broker-dealer, MOSIPL, and therefore, may not be subject to NASD rule 2711 and NYSE Rule 472 restrictions on communication with a subject company, public appearances and trading securities held by a research analyst account.

For Singapore

In Singapore, this report is being distributed by Motilal Oswal Capital Markets (Singapore) Pte. Ltd. ("MOCMSPL") (UEN 201129401Z), which is a holder of a capital markets services license and an exempt financial adviser in Singapore. This report is distributed solely to persons who (a) qualify as "institutional investors" as defined in section 4A(1)(c) of the Securities and Futures Act of Singapore ("SFA") or (b) are considered "accredited investors" as defined in section 2(1) of the Financial Advisers Regulations of Singapore read with section 4A(1)(a) of the SFA. Accordingly, if a recipient is neither an "institutional investor", they must immediately discontinue any use of this Report and inform MOCMSPL.

In respect_ of any matter arising from or in connection with the research you could contact the following representatives of MOCMSPL. In case of grievances for any of the services rendered by MOCMSPL write to grievances@motilaloswal.com.

Disclaimer:

The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form. without prior written consent. This report and information herein is solely for informational purpose and may not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. Each recipient of this document should make such investigations as it deems necessary to arrive at an independent evaluation of an investment in the securities of companies referred to in this document (including the merits and risks involved), and should consult its own advisors to determine the merits and risks of such an investment. The investment discussed or views expressed may not be suitable for all investors. Certain transactions -including those involving futures, options, another derivative products as well as non-investment grade securities - involve substantial risk and are not suitable for all investors. No representation or warranty, express or implied, is made as to the accuracy, completeness or fairness of the information and opinions contained in this document. The Disclosures of Interest Statement incorporated in this document is provided solely to enhance the transparency and should not be treated as endorsement of the views expressed in the report. This information is subject to change without any prior notice. The Company reserves the right to make modifications and alternations to this statement as may be required from time to time without any prior approval. MOFSL, its associates, their directors and the employees may from time to time, effect or have effected an own account transaction in, or deal as principal or agent in or for the securities mentioned in this document. They may perform or seek to perform investment banking or other services for, or solicit investment banking or other business from, any company referred to in this report. Each of these entities functions as a separate, distinct and independent of each other. The recipient should take this into account before interpreting the document. This report has been prepared on the basis of information that is already available in publicly accessible media or developed through analysis of MOFSL. The views expressed are those of the analyst, and the Company may or may not subscribe to all the views expressed therein. This document is being supplied to you solely for your information and may not be reproduced, redistributed or passed on, directly or indirectly, to any other person or published, copied, in whole or in part, for any purpose. This report is not directed or intended for distribution to, or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL to any registration or licensing requirement within such jurisdiction. The securities described herein may or may not be eligible for sale in all jurisdictions or to certain category of investors. Persons in whose possession this document may come are required to inform themselves of and to observe such restriction. Neither the Firm, not its directors, employees, agents or representatives shall be liable for any damages whether direct or indirect, incidental, special or consequential including lost revenue or lost profits that may arise from or in connection with the use of the information. The person accessing this information specifically agrees to exempt MOFSL or any of its affiliates or employees from, any and all responsibility/liability arising from such misuse and agrees not to hold MOFSL or any of its affiliates or employees responsible for any such misuse and further agrees to hold MOFSL or any of its affiliates or employees free and harmless from all losses, costs, damages, expenses that may be suffered by the person accessing this information due to any errors and delays.
