## Technical Snapshot

**SELL GOLD OCT @ 101400 SL 101800 TGT 101000-100700. MCX**

## Observations

Gold trading range for the day is 100025-102235.

Gold rallied to all time high on MCX driven by rising expectations of a Fed rate cut as well as safe-haven demand.

Data showed US employment growth was weaker than expected in July, signaling potential cracks in the labor market.

Trump unveiled new tariffs rates—ranging from 10% to 41%—on imports from dozens of countries, set to take effect on August 7.

Citi raises gold forecast to \$3,500/oz over next 3months on negative US outlook.

## Technical Snapshot

**SELL SILVER SEP @ 114000 SL 115000 TGT 113000-112000. MCX**

## Observations

Silver trading range for the day is 111350-114810.

Silver rose as weak U.S. jobs data boosts Fed rate cut expectations.

Nonfarm payrolls increased only 73,000, with major downward revisions reported.

U.S. factory orders dropped 4.8% in June, led by transport plunge.

Markets nearly fully price September Fed cut, 63 bps easing expected.

Gold rallied to all time high on MCX driven by rising expectations of a Federal Reserve rate cut as well as safe-haven demand. Data showed US employment growth was weaker than expected in July, signaling potential cracks in the labor market. Citi raised its gold price forecast over next three months to \$3,500 per ounce from \$3,300, and the expected trading range to \$3,300–\$3,600 from \$3,100– \$3,500, on the belief that near-term U.S. growth and inflation outlook has deteriorated.

Gold demand in key Asian hubs improves amid price correction - Physical gold demand in key Asian markets improved slightly as a pullback in prices sparked buying interest, though volatility kept some buyers cautious. Discounts offered by Indian dealers narrowed to as much as \$7 an ounce over official domestic prices, compared to up to \$15 last week. In China, dealers quoted gold in a wide range, between a discount of \$4.2 and a premium of \$12 per ounce above international rates. In Hong Kong gold was sold at par to a \$1.50 premium, while Singapore prices ranged from par to a \$1.40 premium. In Japan, bullion was sold at par to a premium of \$0.60.

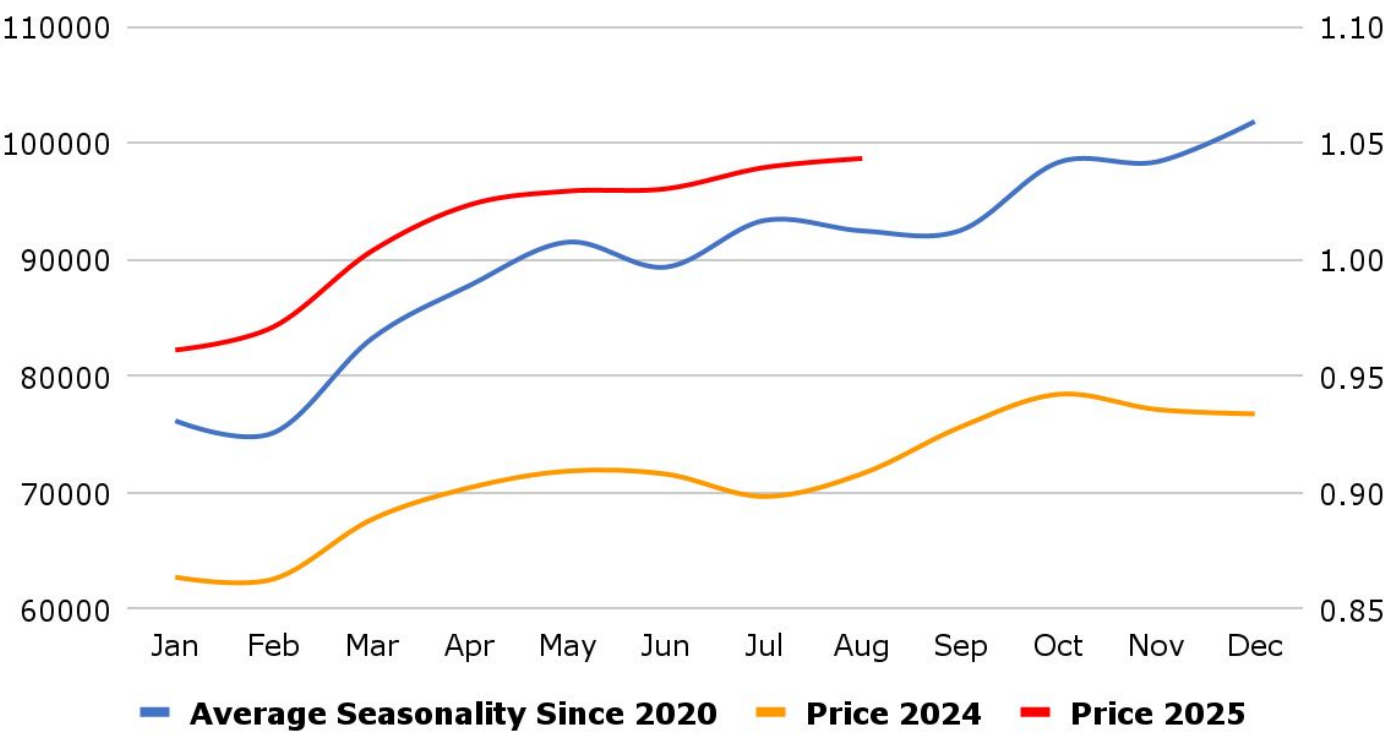

India's gold demand to hit 5 – year low as record prices dent jewellery sales, WGC says - India's gold consumption in 2025 is set to fall to a five-year low, as record-high prices are denting jewellery purchases, overshadowing a slight boost in investment demand, the World Gold Council said. Gold demand in the world's second-biggest consumer of the precious metal could stand between 600 metric tons and 700 metric tons in 2025, the lowest since 2020, and down from last year's 802.8 tons, Sachin Jain, CEO of WGC's Indian operations, told. Demand could reach 700 tons if prices stabilise, but a 10%–15% price rise driven by geopolitical factors may pull it down to the lower end of the range, he said. India's gold consumption in the April-to-June quarter fell 10% from a year ago to 134.9 tons, as jewellery demand fell 17% while investment demand rose 7% in the quarter, the WGC said. Demand in the September quarter is expected to be lower than last year's 248.3 tons, when New Delhi's move to reduce import duties boosted purchases, Jain said. "Gold ETFs in India are at a very important cusp for growth, and as India becomes more digitised, they are gaining popularity and prominence," he said.

Global gold demand up 3% in second quarter as investment jumps, WGC says - Global gold demand including over-the-counter (OTC) trading rose by 3% year-on-year to 1,248.8 metric tons in the second quarter of 2025 as investment jumped 78%, the World Gold Council said. Demand for gold bars rose 21% in the second quarter, offsetting a continuing slump in demand for coins, said the WGC. Physically backed gold exchange-traded funds recorded their largest semi-annual inflow since the first half of 2020 from January to June, the WGC said earlier in July. Global gold jewellery consumption, the main category of physical demand, fell 14% to 341.0 tons, the lowest level since the pandemic-swept third quarter of 2020, as the high prices deterred buyers. "Much of the decline came from China and India, whose combined market share fell below 50% for only the third time in the last five years," the WGC said. Central banks, another major source of gold demand, reduced purchases by 21% to 166.5 tons in the second quarter, the WGC. On the supply front, recycling added 4% to 347.2 tons in the second quarter, but remained relatively subdued despite record prices, as Indian consumers opted to exchange old jewellery for new, or to pledge it as collateral against loans.

India's June gold imports fall to two – year low as record price dents demand - India's gold imports in June fell 40% from a year ago to their lowest level in more than two years, as a price rally to a record high sapped demand, a government and two industry officials told. Imports to India, fell to 21 tons, the lowest since April 2023, said a government official. In value terms, gold imports fell to \$1.84 billion in June from \$2.48 billion a year ago, the official said. In the past decade, on average, India imported 52.4 tons of gold in June. In the first half of 2025, India's gold imports fell 30% from a year ago to 204.1 tons, the lowest since the first half of 2020, when the COVID-19 outbreak led to lockdown, the trade ministry data showed. Silver imports in June nearly doubled from a year ago to 197 tons, but were significantly lower than the 544 tons imported in May, the government official said.
