Stable quarter

KTM turnaround to be among the key monitorables

- Bajaj Auto's (BJAUT) 4QFY25 earnings at INR20.5b were broadly in line with our estimate. Margins remained stable YoY at 20.2% as benefits from favorable currency and improved mix were offset by the impact of stoppage of exports to KTM and higher promotional spends.
- While a recovery in exports and a healthy ramp-up of Chetak and 3Ws are key positives, its market share loss in domestic motorcycles, that too in its bread and butter 125cc+ segment, remains the key concern. Further, the ramp-up of its CNG bike Freedom has been slower than expected. While BJAUT has acquired a controlling stake in KTM under a lucrative deal, its effectiveness depends on how quickly it is able to turn around its operations, which will remain the key monitorable from hereon. At ~26.9x/24x FY26E/27E EPS, BJAUT appears fairly valued. We maintain a Neutral rating with a TP of INR8,688, based on 24x FY27E core EPS.

Margins maintained at 20%+ despite increase in EV mix

- 4Q earnings at INR20.5b were broadly in line with our estimate.
- Revenue grew 6% YoY to INR121.5b and was in line with our estimate.
- Gross margin improved 40bp YoY largely due to favorable currency (USD-INR at 86.5 in 4Q vs. 84.3 QoQ and 83 YoY) and a better product mix.
- However, this was offset by the impact of stoppage of exports to KTM and higher promotional spends in 4Q (other exp up 80bp YoY).
- Overall, EBITDA margin remained stable on both YoY and QoQ basis at 20.2% (marginally ahead of our estimate of 20%).
- Overall, PAT grew 6% YoY to INR20.5b.
- For FY25, revenue grew 12% YoY to INR500b, led by 7% YoY growth in volumes.
- EBITDA margin improved 50bp YoY to 20.2% due to an improved mix and favorable currency.
- Overall, PAT grew 12% YoY to INR83.6b.
- The board has approved a dividend of INR210 per share, which translates into a payout of 67%.
- BJAUT delivered FCF of INR65b after investing INR7b in capex. It has also invested INR22b in BACL in FY25.
- BJAUT have a healthy cash and cash equivalent balance of INR170b.

Highlights from the management commentary

Management expects 2W industry to post 5-6% YoY growth in FY26, largely driven by 125cc+ segment. On the back of its new launches, BJAUT would look to recover its lost market share in the 125cc+ segment and would target to get closer to the market leader in this segment by the end of FY26.

- Management expects exports to grow at 15-20% YoY even in FY26, led by strong growth in Latin America and the Middle East and an expected revival in exports to KTM in 2HFY26.
- While BJAUT has done well in 2W EVs and now is a market leader with a 25% share, supply curbs from China on rare earth metals remain a lingering concern going ahead.
- Management expects input costs to rise 1% QoQ in 1Q. It has passed on about 30-50% of this increase to consumers. Further, currency is now a headwind for BJAUT as INR is now appreciating relative to USD.
- BJAUT has showcased its intent to take a controlling stake in PBAG, which is the holdco of KTM, subject to regulatory approvals. Once these approvals are in, BJAUT will look to leverage some of the synergies between the two companies, which include: 1) joint sourcing for key raw materials, 2) joint development program, and 3) extension of the current agreement to include joint production of up to 900cc products.

Valuation and view

■ While a recovery in exports and a healthy ramp-up of Chetak and 3Ws are key positives, its market share loss in domestic motorcycles, that too in its bread and butter 125cc+ segment, remains the key concern. Further, the ramp-up of its CNG bike Freedom has been slower than expected. While BJAUT has acquired a controlling stake in KTM under a lucrative deal, its effectiveness depends on how quickly it is able to turn around its operations, which will remain the key monitorable from hereon. At ~26.9x/24x FY26E/27E EPS, BJAUT appears fairly valued. We maintain a Neutral rating with a target price of INR8,688, based on 24x FY27E core EPS.

E: MOFSL Estimates

Key takeaways from the earnings call

Result highlights

- Export revenue stood at USD470m and spare parts revenue was INR15.7b in 4Q.
- Management has indicated that the financial performance of Chetak has substantially improved in the last 12-15 months and the 2W EV segment is now near EBITDA break-even, post PLI accruals. Overall, EV revenue stood at INR55b in FY25. Its EV pool is now marginal profitable vs. INR1b in losses last year. This was driven by lower losses in Chetak and the ramp-up of 3W EVs.
- BJAUT delivered FCF of INR65b after investing INR7b in capex for FY25. It has also invested INR22b in BACL in FY25.
- It has a healthy cash and cash equivalent balance of INR170b.

Domestic motorcycles update

- Key issues BJAUT has seen in ramping up Freedom sales are: 1) anxiety of customers of not having enough CNG pumps in the vicinity, 2) pumps often do not have right pressure to fully fill up the tank, thereby hurting optimum range of the bike. Management has indicated that this bike continues to see strong demand in regions with good CNG density like Delhi and Kerala, where its penetration is almost 10-11%. Now it has a fair understanding of which regions to focus on to ramp up the acceptance of this bike going forward.
- Management expects the industry to post 5-6% YoY growth in FY26, largely driven by 125cc+ segment.
- BJAUT has seen market share decline in 125cc+ segment in FY25 to 24% from 26% in FY24.
- Management has indicated that it has a strategy in place to get its market share back on track in this segment. It has already launched six new Pulsar variants in 4Q within 150-200cc segments with improved features. It also expects to resume a focused push for Freedom motorcycle in regions with good CNG network for long distance riders. Further, it plans to launch an entry-level 125cc motorcycle later in the year. It has also recalibrated prices of some products based on competition benchmarking post OBD2. BJAUT intends to put in place marketing campaigns on both these initiatives in coming quarters. On the back of these initiatives, it would look to recover lost market share in the 125cc+ segment and would target to get closer to the market leader in this segment by the end of FY26.

2W exports

- Exports grew 20% YoY in FY25.
- The top 30 overseas regions for BJAUT, which contribute to 70% of emerging markets, grew at a healthy pace of 26% YoY in FY25. In these regions, BJAUT outperformed and posted 31% YoY growth in FY25.
- In Latin America, which has emerged as the largest emerging market, BJAUT posted 18% growth with a rich mix: 65% volumes coming from Pulsar and Dominar segments.
- Even in Brazil, BJAUT sold 7k units in 4Q, better than FY24. It commenced production of CNKD plant in Brazil with a capacity of 20k units p.a. in Jul'24. BJAUT now targets to ramp up to 40k units by Dec'25.

- Africa and Asia markets remain largely stable. While Africa has stabilized given the global adverse macro, BJAUT remains cautious about the outlook for this market.
- Management expects exports to grow at 15-20% YoY even in FY26, led by strong growth in Latin America and the Middle East and an expected revival in exports to KTM in 2H.

2W EVs

- Market share of Chetak increased to 25% in 4QFY25 from 13% in 4QFY25, making BJAUT the market leader in 2W EVs. This is driven by the strong acceptance of its 35 series models.
- The launch of the 3502 series has helped improve margins. It expects to further consolidate its position in this segment with the launch of the 3503 series in May'25.
- BJAUT now sells Chetak in 310 exclusive experience centers and over 3k touchpoints across India.
- Demand for Chetak is on an uptrend, though there are supply chain issues caused by China's curbs on the export of rare earth materials globally. While China notified this rule in Apr'25, BJAUT has a process in place to get the requisite certifications to confirm that the end use of these materials will not be for military applications. The government has so far cleared around 30 certificates, which have been sent to China to see if these are appropriate. The industry will get a sense of the exact approval time it would take to get these certifications in place, once these are cleared by China.
- Given that China controls almost 90% of the rare earth metal supply chain, scouting for alternate sources is being ruled out at this stage.
- Management indicated that it has requisite supply of these materials until June end and any further delay in clearing these certificates may lead to disruption for EV production in the near term.

Update on domestic 3Ws

- Management remains positive about the long-term outlook for this business given the enormous need for last-mile mobility in the country.
- BJAUT has a dominant 75% market share in the ICE 3W segment.
- In e-autos as well, BJAUT saw 60% YoY growth in FY25 and doubled its market share to 33% in FY25. It has now become the market leader in this segment, driven by the good acceptance of its Go-Go brand in e-autos.
- It targets to launch e-rik by Jul'25 to tap the 40k per month e-rik industry.
- BJAUT also targets to launch a lithium-ion based vehicle, which is just 10% of the market today. However, it would target to expand this penetration by launching much better and reliable options for the consumer.

Outlook on input costs and currency trends

- In 4Q, noble metal prices surged, though they were offset by softness in steel and aluminium prices. Similarly, nickel and lead prices saw some inflation, while rubber and ABS prices were soft. Overall, input costs remained stable QoQ in 4Q.
- However, management expects input costs to rise in 1Q due to a rise in aluminum prices. Further, it has passed on the OBD2 costs to customers. Overall, it expects input costs to rise 1% QoQ in 1QFY26.

- It has so far taken pricing action, which covers up to 30-50% of the cost increase.
- Further, currency is now a headwind for BJAUT as INR is now appreciating against USD.

Update on KTM

- In order to address acute liquidity challenges in KTM business and enable a structured revival of the brand, BJAUT has outlined a set of strategic interventions, which include: 1) the proposed equity acquisition by BJAUT of a controlling stake in PBAG (for around EUR80m) and therefore, in PMAG/KTM (upon receipt of regulatory approvals); 2) debt package totaling EUR800m to address liquidity needs to meet creditor obligations pursuant to the approved restructuring plan and fund the restart of operations. Of this, it has already infused EUR200m in cash as shareholder debt to maintain continuity and revive operations.
- A fresh debt of EUR600m would be provided to fund the payment of creditors' quota and associated costs.
- Following the receipt of requisite approvals, BJAUT will be committed to turning around KTM operations.
- Once these approvals are in, BJAUT will look to leverage some of the synergies between the two companies, which include: 1) joint sourcing for key raw materials, 2) a joint development program, and 3) extension of the current agreement to include joint production of up to 900cc products.

Other highlights

- BJAUT Credit posted PAT of INR650m in FY25. AUM stood at INR95b. BJAUT has so far invested INR24b (INR21b in FY25) in its financing arm.
- Penetration of BACL is 40% in motorcycles and 50% in 3Ws.

Valuation and view

- Well placed to ride the premiumization trend: The 125cc+ motorcycle segment's contribution has increased to 54% in FY25 from 38% in FY19. Given its continued focus on this segment over the last few years, BJAUT has emerged as a major beneficiary of this trend − BJAUT's contribution in this segment has risen sharply to 75% in FY25 from 41% in FY19. Given the strong presence in the 125cc segment and the major revamp of the Pulsar brand last year in the premium segment, along with a healthy presence of brands like Dominar and KTM, BJAUT seems well placed to capitalize on the premiumization trend visible in India.
- BJAUT's plans to enter the entry segment with CNG bike face headwinds: BJAUT had launched the world's first CNG-integrated motorcycle, Freedom 125. We think the company has clearly done everything within its stride to make the motorcycle both attractive (despite having a CNG tank) and accessible to customers. This bike has been well accepted in markets where CNG penetration is good (viz. Delhi, Kerala). However, it is seeing low adoption in other markets. Overall, the ramp-up of Freedom is likely to take longer than earlier envisaged.
- Loss in market share in domestic motorcycle is a concern: In FY25, BJAUT has lost 160bp market share to 16.6% in motorcycles. However, the key concern is that it has lost market share not only in the entry segment, but also in 125cc and 150-250cc segments. Its market share in the 150-250cc segment has declined 440bp YoY to 30.2% for FY25. Loss in market share in the 125cc+ segment remains the key concern for the stock.
- Scaling up its EV business: Chetak's market share rose from ~13% in 4QFY24 to nearly 25% in 4QFY25. It has recently launched a premium Chetak variant under the 35 series. It hopes to gain to a stronger leadership position in EV scooter segment, especially in the premium segment, where its share has been low. The overall EV segment, including both Chetak and 3Ws, has now made some positive margins in absolute terms. Given e-3W is as profitable as ICE, BJAUT would continue to ramp up its penetration in e-3Ws.
- Exports outlook improves: BJAUT is seeing healthy growth in LatAm and ASEAN. Markets like Africa and Asia continue to see stable demand. Management expects exports to KTM to resume from 2H onward. Given these factors, management expects exports to grow at 15-20% in FY26.

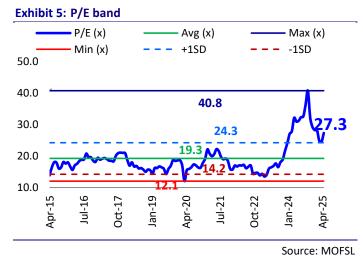

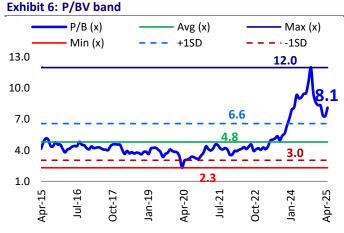

- BJAUT buys controlling stake in KTM, turn-around to be the key: Following the receipt of requisite approvals, Bajaj will be committed to a turnaround KTM operations. While BJAUT has been able to buy the majority stake at KTM under a lucrative deal highlighted above, the effectiveness of this transaction is based on:

 1) whether the restructuring plan progresses as planned above; 2) how quickly BJAUT is able to turn around KTM, once it is in its fold; 3) demand environment in the US and Europe. We are currently ascribing only investment value to KTM at this stage and we would continue to monitor its restructuring efforts going ahead.
- Valuation and view: While a recovery in exports and a healthy ramp-up of Chetak and 3Ws are key positives, its market share loss in domestic motorcycles, that too in its bread and butter 125cc+ segment, remains the key concern. Further, the ramp-up of its CNG bike Freedom has been slower than expected. While BJAUT has acquired a controlling stake in KTM under a lucrative deal, its effectiveness depends on how quickly it is able to turn around its operations, which will remain the key monitorable from hereon. At ~26.9x/24x FY26E/27E EPS, BJAUT appears fairly valued. We maintain a Neutral rating with a target price of INR8,688, based on 24x FY27E core EPS.

NOTES

Explanation of Investment Rating		
Investment Rating	Expected return (over 12-month)	
BUY	>=15%	
SELL	<-10%	
NEUTRAL	< - 10 % to 15%	
UNDER REVIEW	Rating may undergo a change	
NOT RATED	We have forward looking estimates for the stock but we refrain from assigning recommendation	

*In case the recommendation given by the Research Analyst is inconsistent with the investment rating legend for a continuous period of 30 days, the Research Analyst shall be within following 30 days take appropriate measures to make the recommendation consistent with the investment rating legend.

Disclosures

The following Disclosures are being made in compliance with the SEBI Research Analyst Regulations 2014 (herein after referred to as the Regulations).

Motilal Oswal Financial Services Ltd. (MOFSL) is a SEBI Registered Research Analyst having registration no. INH000000412. MOFSL, the Research Entity (RE) as defined in the Regulations, is engaged in the business of providing Stock broking services, Depository participant services & distribution of various financial products. MOFSL is a listed public company, the details in respect of which are available on www.motilaloswal.com. MOFSL (erstwhile Motilal Oswal Securities Limited - MOSL) is registered with the Securities & Exchange Board of India (SEBI) and is a registered Trading Member with National Stock Exchange of India Ltd. (NSE) and Bombay Stock Exchange Limited (BSE), Multi Commodity Exchange of India Limited (MCDX) and National Commodity & Derivatives Exchange Limited (NCDEX) for its stock broking activities & is Depository participant with Central Depository Services Limited (CDSL) National Securities Depository Limited (NSE), Nulli Commodity Exchange of India Limited (MCDEX) for its stock broking activities & is Depository participant with Central Depository Services Limited (CDSL) National Securities Depository of India (IRDA) as Corporate Agent for insurance products. Details of associate entities of Motilal Oswal Financial Services Limited are available on the website at http://onlinereports.motilaloswal.com/Dormant/documents/List%200f%20Associate%20companies.pdf

MOFSL and its associate company(ies), their directors and Research Analyst and their relatives may; (a) from time to time, have a long or short position in, act as principal in, and buy or sell the securities or derivatives thereof of companies mentioned herein. (b) be engaged in any other transaction involving such securities and earn brokerage or other compensation or act as a market maker in the financial instruments of the company(ies) discussed herein or act as an advisor or lender/borrower to such company(ies) or may have any other potential conflict of interests with respect to any recommendation and other related information and opinions; however the same shall have no bearing whatsoever on the specific recommendations made by the analyst(s), as the recommendations made by the analyst(s) are completely independent of the views of the associates of MOFSL even though there might exist an inherent conflict of interest in some of the stocks mentioned in the research report.

MOFSL and / or its affiliates do and seek to do business including investment banking with companies covered in its research reports. As a result, the recipients of this report should be aware that MOFSL may have a potential conflict of interest that may affect the objectivity of this report. Compensation of Research Analysts is not based on any specific merchant banking, investment banking or brokerage service transactions. Details of pending Enquiry Proceedings of Motilal Oswal Financial Services Limited are available on the website at

https://galaxy.motilaloswal.com/ResearchAnalyst/PublishViewLitigation.aspx

A graph of daily closing prices of securities is available at www.nseindia.com, www.bseindia.com. Research Analyst views on Subject Company may vary based on Fundamental research and Technical Research. Proprietary trading desk of MOFSL or its associates maintains arm's length distance with Research Team as all the activities are segregated from MOFSL research activity and therefore it can have an independent view with regards to Subject Company for which Research Team have expressed their views.

Regional Disclosures (outside India)

This report is not directed or intended for distribution to or use by any person or entity resident in a state, country or any jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL & its group companies to registration or licensing requirements within such jurisdictions.

This report is distributed in Hong Kong by Motilal Oswal capital Markets (Hong Kong) Private Limited, a licensed corporation (CE AYY-301) licensed and regulated by the Hong Kong Securities and Futures Commission (SFC) pursuant to the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) "SFO". As per SEBI (Research Analyst Regulations) 2014 Motilal Oswal Securities (SEBI Reg. No. INH000000412) has an agreement with Motilal Oswal capital Markets (Hong Kong) Private Limited for distribution of research report in Hong Kong. This report is intended for distribution only to "Professional Investors" as defined in Part I of Schedule 1 to SFO. Any investment or investment activity to which this document relates is only available to professional investor and will be engaged only with professional investors." Nothing here is an offer or solicitation of these securities, products and services in any jurisdiction where their offer or sale is not qualified or exempt from registration. Terms & Conditions:

This report has been prepared by MOFSL and is meant for sole use by the recipient and not for circulation. The report and information contained herein is strictly confidential and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent of MOFSL. The report is based on the facts, figures and information that are considered true, correct, reliable and accurate. The intent of this report is not recommendatory in nature. The information is obtained from publicly available media or other sources believed to be reliable. Such information has not been independently verified and no guaranty, representation of warranty, express or implied, is made as to its accuracy, completeness or correctness. All such information and opinions are subject to change without notice. The report is prepared solely for informational purpose and does not constitute an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments for the clients. Though disseminated to all the customers simultaneously, not all customers may receive this report at the same time. MOFSL will not treat recipients as customers by virtue of their receiving this report.

The report and information contained herein is strictly confidential and meant solely for the selected recipient and may not be altered in any way, transmitted to, copied or distributed, in part or in whole, to any other person or to the media or reproduced in any form, without prior written consent. This report and information herein is solely for informational purpose and may not be used or considered as an offer document or solicitation of offer to buy or sell or subscribe for securities or other financial instruments. Nothing in this report constitutes investment, legal, accounting and tax advice or a representation that any investment or strategy is suitable or appropriate to your specific circumstances. The securities discussed and opinions expressed in this report may not be suitable for all investors, who must make their own investment decisions, based on their own investment objectives, financial positions and needs of specific recipient. This may not be taken in substitution for the exercise of independent judgment by any recipient. Each recipient of this document should make such investigations as it deems necessary to arrive at an independent evaluation of an investment in the securities of companies referred to in this document (including the merits and risks involved), and should consult its own advisors to determine the merits and risks of such an investment. The investment discussed or views expressed may not be suitable for all investors. Certain transactions -including those involving futures, options, another derivative products as well as non-investment grade securities - involve substantial risk and are not suitable for all investors. No representation or warranty, express or implied, is made as to the accuracy, completeness or fairness of the information and opinions contained in this document. The Disclosures of Interest Statement incorporated in this document is provided solely to enhance the transparency and should not be treated as endorsement of the views expressed in the report. This information is subject to change without any prior notice. The Company reserves the right to make modifications and alternations to this statement as may be required from time to time without any prior approval. MOFSL, its associates, their directors and the employees may from time to time, effect or have effected an own account transaction in, or deal as principal or agent in or for the securities mentioned in this document. They may perform or seek to perform investment banking or other services for, or solicit investment banking or other business from, any company referred to in this report. Each of these entities functions as a separate, distinct and independent of each other. The recipient should take this into account before interpreting the document. This report has been prepared on the basis of information that is already available in publicly accessible media or developed through analysis of MOFSL. The views expressed are those of the analyst, and the Company may or may not subscribe to all the views expressed therein. This document is being supplied to you solely for your information and may not be reproduced, redistributed or passed on, directly, or indirectly, to any other person or published, copied, in whole or in part, for any purpose. This report is not directed or intended for distribution to, or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction, where such distribution, publication, availability or use would be contrary to law, regulation or which would subject MOFSL to any registration or licensing requirement within such jurisdiction. The securities described herein may or may not be eligible for sale in all jurisdictions or to certain category of investors. Persons in whose possession this document may come are required to inform themselves of and to observe such restriction. Neither the Firm, not its directors, employees, agents or representatives shall be liable for any damages whether direct or indirect, incidental, special or consequential including lost revenue or lost profits that may arise from or in connection with the use of the information. The person accessing this information specifically agrees to exempt MOFSL or any of its affiliates or employees from, any and all responsibility/liability arising from such misuse and agrees not to hold MOFSL or any of its affiliates or employees responsible for any such misuse and further agrees to hold MOFSL or any of its affiliates or employees free and harmless from all losses, costs, damages, expenses that may be suffered by the person accessing this information due to any errors and delays.
